of traumatic loss social death and archival erasure If black survival in an anti black world often feels like a race against time Afro Fabulations looks to the modes of memory and imagination through which a queer and black polytemporality is invented and sustained Moving past the antirelational debates in queer theory Nyong o posits queerness as angular sociality drawing upon queer of color critique in order to name the gate and rhythm of black social life as it moves in and out of step with itself He takes up a broad range of sites of analysis from speculative fiction to performance art from artificial intelligence to Blaxploitation cinema Reading the archive of violence and trauma against the grain Afro Fabulations summons the poetic powers of queer world making that have always been immanent to the fight and play of black life
