,2014-07-14 This volume collects together the presentations at the Eighth International Conference on Foundations of
Computer Aided Process Design FOCAPD 2014 an event that brings together researchers educators and practitioners to
identify new challenges and opportunities for process and product design The chemical industry is currently entering a new
phase of rapid evolution The availability of low cost feedstocks from natural gas is causing renewed investment in basic
chemicals in the OECD while societal pressures for sustainability and energy security continue to be key drivers in
technology development and product selection This dynamic environment creates opportunities to launch new products and
processes and to demonstrate new methodologies for innovation synthesis and design FOCAPD 2014 fosters constructive
interaction among thought leaders from academia industry and government and provides a showcase for the latest research
in product and process design Focuses exclusively on the fundamentals and applications of computer aided design for the
process industries Provides a fully archival and indexed record of the FOCAPD14 conference Aligns the FOCAPD series with
the ESCAPE and PSE series   **Proceedings of the International Conference on Foundations of Computer-Aided

Grossmann,George Stephanopoulos,1990 Improved process engineering in general and better process design specifically
hold the key to technology advancement in the chemical as well as biological electronic and other processing industries This
volume contains the proceedings of the Third International Conference on Foundations of Computer Aided Process Design
which brought together engineers scientists and graduate student researchers from a number of industrial academic and
government institutions throughout the world to assess and discuss the current status and future directions of computer
aided process engineering The specific objectives of the conference were to provide a forum for an in depth review of the
current state of the art in chemical process design as well as an introduction to process and product design in other

disciplines an evaluation of current and future needs in process design a formulation of new research directions in computer aided process design and an examination of educational needs in chemical engineering design *Foundations of Computer-aided Chemical Process Design* ,1981 *Proceedings of the International Conference on Foundations of Computer-Aided Process Design ; 2* ,1983 Foundations of Computer-aided Process Design ,1984 **Foundations of Computer Aided Process Operations** G. V. Reklaitis,H. D.
