

# EMERGENT CURRICULUM

An emergent curriculum is a pedagogical approach that adapts to the unique needs and interests of the students, rather than adhering to a strict, pre-determined syllabus.

## EXPLANATION

Emergent curriculum is based on the principle that children learn most effectively when they are engaged in experiences that are meaningful and relatable to their own lives.

In this method, the educator closely observes the students and creates a curriculum that evolves from their observations and responses to the students' inquiries and fascinations.

## EXAMPLES

- Emily brought a cricket in a glass jar to school. Her classmates were fascinated. So, the teacher then let the kids draw pictures of the cricket so they would notice the finer details of its body structure.
- Timmy is obsessed with cheetahs because they run so fast. So, his teacher showed him how to use a stopwatch. Soon, all the students were timing how fast they can run.
