**Faith Seeking Understanding** John M. Shackleford, 2006      Faith Seeking Understanding Daniel L. Migliore, 1991  
Daniel Migliore's *Faith Seeking Understanding* has been a standard introduction to Christian theology for more than a decade. The book's presentation of traditional doctrine in contemporary ways, its concern to hear and engage new voices in theology, and its creative and accessible style have kept it one of the most stimulating, balanced, and readable guides to theology available.      *An Introduction to Christian Philosophical Theology* Stephen T. Davis, Eric T. Yang, 2020-11-17  
An accessible introduction to Christian philosophical theology. Philosophical or analytic theology seeks to employ philosophical tools while studying topics in Christian theology and examining the logical consistency or intelligibility of some of the key doctrines of the Christian faith. In this accessible primer, *An Introduction to Christian Philosophical Theology* authors Stephen T. Davis and Eric T. Yang first explain the scope, relevance, and value of philosophical theology and then apply its conceptual tools to examine each of the core Christian doctrines: Revelation and Scripture, The Trinity, The Incarnation, Redemption and the atonement, Resurrection and life after death. The final chapter briefly addresses some additional theological issues, including petitionary prayer, eschatology, and original sin. Designed for beginning students and non-specialists, this guide provides the ideal entry point for not only understanding what philosophical theology is but also for how it can provide valuable insights for how we think about the core doctrines of the Christian faith.      Faith Seeking Understanding David Marshall, 2012-06-26  
Essays in Memory of Paul Brand and Ralph D. Winter. How does the Christian faith help us see into the true nature of life more clearly? Why do people suffer? Where do we come from? What does Jesus have to say to a changing world? What can we learn from great mission pioneers about seeking truth at the cutting edges of human knowledge? *Faith Seeking Understanding* explores such questions. Notable Christian thinkers such as Philip Yancey, Alvin Plantinga, Rodney Stark, Allan Chapman, Don Richardson, Yuan Zhiming, and more share powerful insights that, from the perspective of Christian faith, help answer people's deepest questions in the twenty-first century. Inspired by the lives and accomplishments of Paul Brand and Ralph D. Winter, this book seeks to apply the curious, open-minded, and compassionate spirit these Christian leaders exhibited to key contemporary questions in science, history, philosophy, theology, and comparative religion. The reader will gain a fresh appreciation for the intellectual challenges of the Christian faith and some of the most fascinating and sometimes controversial ways in which those challenges are being met.      Faith Seeking Understanding, 2011      **A Book of Faith Seeking Understanding** Philip John Fisk, 2021-11-23  
Far too often the God of the philosophers, those who for the most part had no appointment at a university, are the primary sources relied upon by many authors nowadays in their approach to the problem of evil. These fifty-two Lord's day or Sabbath day readings draw the reader into a dialogue with university professors of the late medieval era and sixteenth and early seventeenth centuries. The theme of these literary renditions of yesteryear's debates and disputations is the perennial quest by theologians to exonerate God from the charge that he is the author of evil.

The sophistication and complexity of their scholastic method and solutions to the problem of evil may surprise but hopefully will persuade modern day readers to rethink their own conclusion about the problem and to take up and read university theologians who were formerly unknown all in the spirit of Anselm's faith seeking understanding

**Faith Seeking Understanding**, 1979

**Faith Seeking Understanding: A complete course in theology** Charles Belmonte, 2006

**Faith Seeking Understanding** John M. Shackleford, 2007 Faith Seeking Understanding promotes the idea that one can approach an understanding of God through the study of science Religious faith and scientific inquiry should not be seen as competitors diametrically opposed to each other but as complementary ways to assist the human quest for knowledge and deeper meaning of existence Science is viewed primarily as a gift from God The author with his background in both science and theology provides the reader with an understanding of human participation in God's creation John Shackleford explores the scientific evidence for a personal loving God in a positive dialogue between Christian faith and science that will be thought provoking for college and university students along with those interested in how science and religious faith intersect

**Faith Seeking Understanding** Matthew Charles Ogilvie, 2001 How can doctrines be made intelligible within the context of our modern world This book throws new light upon Lonergan's response to this challenge in his presentation of the functional specialty systematics within his *Method in Theology* This book primarily aims to present a thorough understanding of systematics function We first investigate systematics specific function as a promotion of understanding of the mysteries of faith We then examine the need for and grounds of this functional specialty and we place systematics in relation to the other functional specialties within Lonergan's *Method in Theology* Of special concern to this work is an investigation of what Lonergan could have meant by explaining systematics function by reference to the statement of the First Vatican Council that human reason can attain an understanding of the mysteries both by analogy with what human reason naturally knows and by the interconnection of the mysteries with each other and with humanity's last end To make systematics function more intelligible we investigate the conditions prevailing in Catholic theology that prompted Lonergan to develop his theological method assess the value and place of systematics and evaluate Lonergan's presentation

of systematics in relation to the goals he set himself in developing a theological method

**What Can Love Hope For?** William Loader, 2020-10-06 This book raises thorny questions about the themes of faith hope and love Is God really like Jesus or was Jesus a temporary exception to the way God usually is Was there forgiveness before the cross Will God one day stop loving What do we do with the fact that the hopes they had for change were not fulfilled What happened to good news for the poor Why did some replace it with something else Does Christian freedom mean we no longer need the Law Were early responses to rejection always healthy Does the Bible say all we need to know about sexuality It responds to what the author observes is a widespread hunger and interest for discussions which identify and tackle some of the troubling themes of New Testament interpretation in ways that are not defensive but yet are also supportive of faith especially an informed faith It draws together the fruit of over half a century of scholarly research and teaching

*Faith Seeking Understanding* Daniel L. Migliore, 1991 This timely stimulating introduction to Christian theology is both critically respectful of the church's classical theological heritage and critically open to the emphases of contemporary theology especially feminist black and Latin American liberation theologies

**Christian Truth Made Plain** Dave Sheasley, 2019-10-22 The book provides a clear and straightforward presentation of Christian truth for the average Christian believer in understandable non ecclesiastical language It is intended to help the believer understand the ultimate truth about God and human beings and with the knowledge of such truth experience the peace comfort and assurance of God's love and purpose God has made Himself known through the magnificence of the natural world and astounding complexity of life itself Today we also know that the universe was created in the Big Bang which requires a Creator who exists outside the universe Although believers know that God is omnipotent omniscient and omnipresent an indispensable part of God's true nature is his love This is demonstrated through God's ultimate revelation in Jesus Christ It is his love of human beings and his desire for a love relationship with us that is his reason for creating us and our purpose for being But sin entered the world with Adam's disobedience in the Garden of Eden The true nature of sin is understood as self centeredness a misplaced priority of putting our own needs and wants above those of the One who created us Adam's original sin resulted in a genetic change that has been inherited by all human beings born after Adam and accounts for the sin nature of self centeredness that exists within each one of us It is this original sin which accounts for all the pain and suffering even from natural disasters and disease God's act to remedy human sin and restore our relationship with Him is Jesus Christ The Bible describes our condition and his solution using legal terms such as guilt and punishment as a debt which we owe to God but cannot repay and as slavery to our sinful nature We are unable to do anything ourselves to remedy our condition Salvation is a gift which God offers us All we have to do is believe the truth In the second part of the book various troublesome topics that confront the Christian believer are discussed in order to bring understanding comfort and assurance God's existence outside of time is presented to correct the misunderstandings of predestination The truth of God's grace the free gift He offers through Jesus Christ is explained

showing that a gift offered must be accepted in order to be complete The contemporary issue of evolution is shown to be wholly consistent with Christian truth when the established scientific facts and Christian truth are both understood God's hand rather than chance explains the development of new species through genetic changes in DNA while human beings came into existence through the image of God which He miraculously breathed into Adam and Eve in a second step following the physical and physiological development of the bodies which we inhabit Insights are provided into the usually avoided topics of Jesus Christ as the only way to God and the seeming mystery of death

**Yesteryear's Faith Seeking Understanding** Philip John Fisk, 2022-06-24 The voices of yesteryear's scholastics are silenced Scholastic distinctions discarded Faith seeking understanding cancelled This book turns to university professors who brought classical medieval Reformation and Renaissance thought to bear on the teaching of the doctrine of providence at the early New England Colleges Their ultimate purpose was to exonerate God from the charge that he was the author even actor of evil Their scholastic method drew from a long and surprisingly ecumenical and philosophical enterprise in the history of the church This book's aim is to let the scholastic approaches to the mystery of divine providence speak for themselves Part One introduces the reader to the art of disputation and provides a guided historical theological tour of scholastic distinctions that were used by doctors of the church to explain issues related to the doctrine of divine providence Part Two invites the reader to follow the author on his journeys to Harvard Yale the College of New Jersey and the College of Rhode Island and Providence Plantations commencement day disputations as he engages in Platonic like dialogues with presidents rectors and students of the New England Colleges While the dialogues are imagined the characters times locations and quoted texts are real
