## **Fact Value And God:**

**Fact, Value, and God** Arthur Frank Holmes,1997 Reacting to contemporary thinkers who celebrate a liberation from absolute truth Arthur Holmes explores historical ways of grounding moral values objectively in the nature of reality and reconnecting to objective and universal moral norms **Fact, Value, God, and Reality** Paul Froese,2011 *God, Truth, and other Enigmas* Miroslaw Szatkowski,2015-07-01 The book *God Truth and other Enigmas* is a collection of eighteen essays that fall under four headings God's Existence Non Existence Omniscience Truth and Metaphysical Enigmas The essays vary widely in topic and tone They provide the reader with an overview of contemporary philosophical approaches to the subjects that are indicated in the title of the book **God and Evidence** Rob Lovering,2013-06-20 *God and Evidence* presents a new set of compelling problems for theistic philosophers The problems pertain to three types of theistic philosopher which Lovering defines here as theistic inferentialists theistic non inferentialists and theistic fideists Theistic inferentialists believe that God exists that there is inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic non inferentialists believe that God exists that there is non inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic fideists believe that God exists that there is no discoverable probabilifying evidence inferential or non inferential of God's existence and that it is nevertheless acceptable morally if not otherwise to have faith that God exists Lovering argues that each type of theistic philosopher faces a problem unique to his type and that they all share two particular problems Some of these problems take us down an entirely new discursive path others down a new discursive path branching off from an old one **Freedom, God, and Worlds** Michael J. Almeida,2012-08-30 Michael J Almeida presents a powerful argument which holds that several widely believed and largely undisputed objections to the idea of the existence of God are in fact just philosophical dogmas He challenges some of the most well entrenched principles in philosophical theology which have served as basic assumptions in influential apriori atheological arguments But most theists also maintain that the principles express apriori necessary truths including those principles that are presumed to follow from the nature of an essentially omnipotent essentially omniscient essentially perfectly good and necessarily existing being Among the atheological arguments that deploy these philosophical dogmas are the Logical Problem of Evil the Logical Problem of the Best Possible World the Logical Problem of Good Enough Worlds the Problem of Divine Freedom the Problem of No Best World and the Evidential Problem of Evil In *Freedom God and Worlds* Almeida claims that these arguments present no important challenge to the existence of an Anselmian God Not only are these philosophical principles false they are necessarily false **In Search of Moral Knowledge** R. Scott Smith,2014-05-02 For most of the church's history people have seen Christian ethics as normative and universally applicable Recently however this view has been lost thanks to naturalism and relativism R Scott Smith argues that Christians need to overcome Kant's fact value dichotomy and recover the possibility of genuine moral and theological
