Art of Falconry, by Frederick II of Hohenstaufen Frederick II (Holy Roman Emperor),Casey Albert Wood,Florence Marjorie Fyfe,1943-06 De Arte Venandi cum Avibus was written shortly before the year 1250 by Frederick II Holy Roman

Emperor King of Sicily and Jerusalem in whose court with its remarkably cosmopolitan and highly intellectual life may be found the real beginning of the Italian Renaissance In spite of its title it is far more than a dissertation on hunting There is a lengthy introduction dealing with the anatomy of birds an intensely interesting description of avian habits and the excursions of migratory birds Indeed this ancient book has long been recognized as the first zoological treatise written in the critical spirit of modern science The sumptuous volume now in hand is however the first translation into English of the complete text originally divided into a prologue and size books Together the translators and editors have at last made available this classic work and have adorned it with notes comments bibliographies and glossary They have produced a work of great value to zoologists especially the ornithologist and also to everyone interested in the history of science and in medieval art and letters

Vanished Beyond the Map Adam Shoalts, 2025-10-07 Canada's greatest modern day explorer sets out into the arctic wilderness to solve a mystery more than 100 years old In November 1910 explorer Hubert Darrell vanished in the uncharted wilds of the Northwest Territories A prospector who had been swept up in the Klondike Gold Rush Darrell later made his name as an expert guide trapper and restless wanderer who ventured where few others dared At a time when travel by dogsled in the North was the norm Darrell became legendary for traversing thousands of kilometres alone and on foot ranging over mountains and across windswept tundra from Alaska to Hudson Bay During his epic journeys he helped rescue sailors trapped in sea ice led Mounties on their patrols and even guided some of the era's most famous explorers Roald Amundsen the first person to reach the South Pole held Darrell in awe remarking once that with men like him he could go to the moon Contemporaries regarded Darrell as the hardest most competent explorer of his day Despite clues reported by Inuit trappers and Mounted Police inquiries his fate remains a mystery While his disappearance sparked headlines around the world Darrell's name would soon also vanish from the history books ironically just as surely as he had in the wild Yet Darrell left behind a trail of letters journals and hand drawn maps With these faded clues and his zeal for adventure Adam Shoalts retraces Darrell's forgotten routes through the wilderness searching for cabin ruins and old campsites He unearths water stained records and tracks down elderly individuals in the hopes that they might remember someone who'd known Darrell Part detective story part biography and part first person adventure narrative **Vanished Beyond the Map** combines expeditions with historical research to solve one of exploration history's enduring cold cases the mystery of Hubert Darrell
