Gender, Religion and Education in a Chaotic Postmodern World Zehavit Gross,Lynn Davies,Al-Khansaa Diab,2012-12-04 The immense changes that the world is undergoing in terms of globalization and migration of peoples have had a profound effect on cultures and identities The question is whether this means shifts in religious identities for women

and men in different contexts whether such shifts are seen as beneficial negative or insufficient or whether social change actually means new conservatism or even fundamentalism Surrounding these questions is the role of education is in any change or new contradiction This unique book enhances an interdisciplinary discourse about the complex intersections between gender religion and education in the contemporary world Literature in the social sciences and humanities have expanded our understanding of women's involvement in almost every aspect of life yet the combined religious educational aspect is still an under studied and often under theorized field of research How people experience their religious identity in a new context or country is also a theme now needing more complex attention Questions of the body visibility and invisibility are receiving new treatments This book fills these gaps The book provides a strong comparative perspective with 15 countries or contexts represented The context of education and learning covers schools higher education non formal education religious institutions adult literacy curriculum and textbooks Overall the book reveals a great complexity and often contradiction in modern negotiations of religion and secularism by girls and boys women and men and a range of possibilities for change It provides a theoretical and practical resource for researchers religious and educational institutions policy makers and teachers

Contemporary Encounters in Gender and Religion Lena Gemzöe, Marja-Liisa Keinänen, Avril Maddrell, 2016-11-23 The fields of gender and religious studies have often been criticized for neglecting to engage with one another and this volume responds to this dearth of interaction by placing the fields in an intimate dialogue Taking a multi disciplinary approach and drawing on feminist scholarship the book undertakes theoretical and empirical explorations of relational and co constitutive encounters of gender and religion Through varied perspectives the chapters address three interrelated themes religion as practice the relationship between religious practice and religion as prescribed by formal religious institutions and the feminization of religion in Europe

Religion, Gender, and the Public Sphere Niamh Reilly, Stacey Scriver, 2014 The re emergence of religion as a significant cultural social and political force is not gender neutral Tensions between claims for women's equality and the rights of sexual

minorities on one side and the claims of religions on the other side are well documented across all major religions and regions. It is also well recognized in feminist scholarship that gender identities and ethno-religious identities work together in complex ways that are often exploited by dominant groups. Hence a more comprehensive understanding of the changing role and influence of religion in the public sphere more widely requires complex multidisciplinary and comparative gender analyses. Most recent discussion on these matters however especially in Europe has focused primarily on the perceived subordinate status of Muslim women. These debates are a reminder of the deep interrelation of questions of gender identity, human rights and religious freedom more generally. The relatively narrow albeit important purview of such discussions so far however underscores the need to extend the horizon of enquiry vis-à-vis religion, gender and the public sphere beyond the binary of Islam versus the West. Religion, Gender and the Public Sphere moves gender from the periphery to the centre of contemporary debates about the role of religion in public and political life. It offers a timely multidisciplinary collection of gender-focused essays that address an array of challenges arising from the changing role and influence of religious organisations, identities, actors and values in the public sphere in contemporary multicultural and democratic societies.

Gender, Religion, Human Rights in Europe Kari Elisabeth Børresen, Sara Cabibbo, 2006 **Bodies in Question**

Darlene Bird, 2017-05-15 Exploring a range of subjects from the human genome project to Kierkegaard's Fear and Trembling, the poetry of Jorie Graham to feminist Christian art, the contributors pose questions around the theme Body and Voice. Questions raised include: Who speaks for the foetus and on what basis? What effect does the near sacrifice of Isaac have on mother Sarah's body and what do embodiment and gender mean for the resurrected body and Jesus's body? *Divine love*

Morny Joy, 2013-07-19 *Divine love* explores the work of Luce Irigaray from the perspective of religious studies. The book examines the development of religious themes in Irigaray's work from *Speculum of the Other Woman* in which she rejects traditional forms of western religion to her more recent explorations of eastern religions. Irigaray's ideas on love, the divine, the ethics of sexual difference and normative heterosexuality are analysed and placed in the context of the reception of her work by secular feminists such as Judith Butler, Drucilla Cornell and Elizabeth Grosz as well as by feminists in Religious Studies such as Pamela Sue Anderson, Ellen Armour, Amy Hollywood and Grace Jantzen. Finally Irigaray's own spiritual path which has been influenced by eastern religions specifically the disciplines of yoga and tantra in Hinduism and Buddhism is evaluated in the light of recent theoretical developments in orientalism and postcolonialism. **Media, Religion and**

Gender Mia Lövhelm, 2013-06-03 *Media, Religion and Gender* presents a selection of eminent current scholarship that explores the role gender plays when religion, media use and values in contemporary society interact. The book surveys the development of research on media, religion and culture through the lens of key theoretical and methodological issues and debates within gender studies. Includes case studies drawn from a variety of countries and contexts to illustrate the range of issues, theoretical perspectives and empirical material involved in current work, outlines new areas and reflects on challenges.
