Gender, Genre & Narrative Pleasure Derek Longhurst, 2012-08-21 Recent years have witnessed important new initiatives in the study of popular fictional modes of writing At one time the field could have been described with reasonable accuracy by two traditions one that analyzed the production and distribution of popular fiction as commodities and one whose proponents regarded popular fiction as the negative which offered definition to the exposure of the positive the great canonic literary tradition Generally then popular fictions were to be evaluated according to the institutionalized norms which had been established as common sense practice around literary studies The decade of the 1970s however ushered in a bewildering range of theoretical debates a crucial gain was establishment of interdisciplinary courses in communication cultural and media studies providing a network of contexts within which serious analysis could evolve and progress Responding to a fundamental challenge from feminism a primary objective of this book is to propose that all narrative and its reading are intrinsically inflected by sexual politics Various approaches represented here demonstrate problems of confronting the gendered pleasures of reading Questions about self sexuality and identity within specific historical formations are raised The objective is to frame describe and unearth the notion of men as readers as a project rather than as the usual unquestioned normative procedure Drawing eclectically upon Marxist psychoanalytic and discourse theory the essays set out readings of popular texts and genres the Western the sentimental novel detective and crime fiction political thrillers and horror and science fiction in the interest of provoking other readers to see the critical study of popular fiction as unthinkable without gender as a central concern *Women Times Three* Kathleen Gregory Klein, 1995 The essays authors are not only widely published scholar critics of mystery detective fiction but also dedicated fans of the genre Familiar with the full scope of mystery fiction they bring insight and enthusiasm to their writing *Routledge Handbook of Sport, Gender and Sexuality* Jennifer Hargreaves, Eric Anderson, 2014-03-05 The Routledge Handbook of Sport Gender and Sexuality brings together important new work from 68 leading international scholars that collectively demonstrates the intrinsic interconnectedness of sport gender and sexuality It introduces what is in essence a sophisticated sub area of sport sociology covering the field comprehensively as well as signalling ideas for future research and analysis Wide ranging across different historical periods different sports and different local and global contexts the book incorporates personal ideological and political narratives varied conceptual methodological and theoretical approaches and examples of complexities and nuanced ways of understanding the gendered and sexualized dynamics of sport It examines structural and cultural forms of gender segregation homophobia heteronormativity and transphobia as well as the ideological struggles and changes that have led to

nuanced ways of thinking about the sport gender and sexuality nexus This is a landmark work of reference that will be a key resource for students and researchers working in sport studies gender studies sexuality studies or sociology

Policing Gender and Alicia Giménez Bartlett's Crime Fiction Dr Nina L. Molinaro, 2015-10-28 Alicia Giménez Bartlett's popular crime series organized around the exploits of Police Inspector Petra Delicado and Deputy Inspector Fermín Garzón is arguably the most successful detective series in Spain of the last three decades Nina L. Molinaro examines the tensions between the rhetoric of gender differences espoused by the woman detective and the orthodox ideology of the police procedural and she situates her discussion in Petra Delicado's contemporary Spain of dog owners, Hola, Russian cults and gated communities *Journal of the History of Sexuality*, 1991

Fictions of Loss in the Victorian Fin de Siècle Stephen Arata, 1996 It has been widely recognised that British culture in the 1880s and 1890s was marked by a sense of irretrievable decline *Fictions of Loss in the Victorian Fin de Siècle* explores the ways in which that perception of loss was cast into narrative into archetypal stories which sought to account for the culture's troubles and perhaps assuage its anxieties Stephen Arata pays close attention to fin de siècle representation of three forms of decline: national, biological and aesthetic and reveals how late Victorian degeneration theory was used to explain such decline By examining a wide range of writers from Kipling to Wilde from Symonds to Conan Doyle and Stoker Arata shows how the nation's twin obsessions with decadence and imperialism became intertwined in the thought of the period His account offers new insights for students and scholars of the fin de siècle

Modern American Reading Practices Philip Goldstein, 2009-02-13 In this thoughtful study Phillip Goldstein shows how the valuation of aesthetics in literary criticism has become increasingly complicated in recent decades Contemporary readers not only need to look at the text's figures and structure or the author's intention but must take various media including television, movies, magazines and newspapers as well as the sexuality, gender, race or nationality of the author, media or text into account In this context Goldstein argues that the study of modern reading practices most effectively preserves the autonomy of aesthetics while revealing the changing social and historical contexts of American readers Using pluralist perspectives on novels such as *Frankenstein*, *Huckleberry Finn*, *Native Son*, *Light in August* and *Jazz* this study suggests that these new historical conditions have markedly expanded and transformed the ways in which Americans have defined and read literature in the last two hundred years

Brown Gumshoes Ralph E. Rodriguez,2005-11 Winner Modern Language Association Prize in United States Latina and Latino and Chicana and Chicano Literary and Cultural Studies 2006 Popular fiction with its capacity for diversion can mask important cultural observations within a framework that is often overlooked in the academic world Works thought to be merely escapist can often be more seriously mined for revelations regarding the worlds they portray especially those of the disenfranchised As detective fiction has slowly earned critical respect more authors from minority groups have chosen it as their medium Chicana o authors previously reluctant to write in an underestimated genre that might further marginalize them have only entered the world of detective fiction in the past two decades In this book the first comprehensive study of Chicana o detective fiction Ralph E Rodriguez examines the recent contributions to the genre by writers such as Rudolfo Anaya Lucha Corpi Rolando Hinojosa Michael Nava and Manuel Ramos Their works reveal the struggles of Chicanas os with feminism homosexuality familia masculinity mysticism the nationalist subject and U S Mexico border relations He maintains that their novels register crucial new discourses of identity politics and cultural citizenship that cannot be understood apart from the historical instability following the demise of the nationalist politics of the Chicana o movement of the 1960s and 1970s In contrast to that time when Chicanas os sought a unified Chicano identity in order to effect social change the 1980s 1990s and 2000s have seen a disengagement from these nationalist politics and a new trend toward a heterogeneous sense of self The detective novel and its traditional focus on questions of knowledge and identity turned out to be the perfect medium in which to examine this new self
