Gender On Campus:

Gender on Campus Sharon Gmelch, 1998 *Gender on Campus* is the first book to combine solid analyses of the broad range of gender issues for women in college with realistic approaches to heighten awareness and alleviate problems. Written for students, the book first clarifies the concept of feminism and then examines gender dynamics in a variety of settings and contexts from the classroom to the sports field and from language to social life. Sharon Gmelch probes sexism, racism, and homophobia on campus and surveys the special issues facing diverse women students. The book also addresses issues relating to body image and sexuality. Its final chapters analyze the role gender continues to play after college in the media, workplace, and politics. After a thorough discussion of a topic, each chapter concludes with possibilities for action. What You Can Do, as well as a selected bibliography of books, videos, and organizations that students can consult. *Gender on Campus* is an invaluable resource for students, parents, and administrators, as well as an excellent text for women's studies courses.

Gender and Sexual Diversity in U.S. Higher Education: Contexts and Opportunities for LGBTQ College Students Dafina-Lazarus Stewart, Kristen A. Renn, G. Blue Brazelton, 2015-12-14. Since 2005, research on identity development, campus climate, and policies, transgender issues, and institutional features such as type of leadership and campus resources has broadened to encompass LGBTQ student engagement and success. This volume includes this enlarged body of research on LGBTQ students taken in the context of widespread changes in public attitudes and public policies related to LGBTQ people, integrating scholarship and student affairs practice. Specific foci include transgender identity development, understanding intersections of sexual orientation and gender identity with other salient identities such as faith, religion, spirituality, race, social class, and ability, and studies about LGBTQ students in special mission institutions, for example, Historically Black Colleges and Universities, religiously affiliated institutions, or women's colleges. This is the 152nd volume of the Jossey-Bass higher education quarterly series. An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals. *New Directions for Student Services* offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual. *Gender and Campus Race Differences in Black Student Academic Performance, Racial Attitudes and College Satisfaction* Walter Recharde Allen, 1986. **College Women Or College Girls?** Renee Nicole Lansley, 2004. Abstract. Undergraduate women's struggles to terminate the university's role in loco parentis represented a revolutionary moment on American campuses in the 1960s. Though the end results were strikingly similar across regions and schools, the paths to change were very different on historically black college campuses when compared to predominantly white college campuses. Challenges to in loco parentis regulations took place earlier on coeducational campuses than at women's colleges. At each college or university, students forged a common language of rights to rescind long-standing non-academic regulations. Student protests against in loco parentis policies emerged out of widespread civil rights activism and Black Power ideology by mid-decade at Howard

University in Washington D C and at Spelman College in Atlanta Georgia Undergraduate women framed arguments against in loco parentis rules in terms of civil rights and student respectability successfully to dismantle non academic regulations on campus by the late sixties On predominantly white campuses the tradition of student self government influenced the shape and tone of women s anti in loco parentis protests The movement to end the role of the university in place of the parent harbingered the women s rights movement of the late 1960s at the Ohio State University in Columbus Ohio and at Simmons College in Boston Massachusetts Women s protests on each campus mobilized female students and significantly impacted their understanding of gender issues within the broader American culture The underlying concern of administrators and parents regarding morality and sexuality on campus permeated campus debates The in loco parentis ideology ultimately proved obsolete as campus officials realized that they could not codify or enforce individual morality in the face of strident student demands for privacy and self determination Undergraduate women struggled to redefine femininity and women s roles in light of shifts in the gender and race structures of American life During the 1970s undergraduate women pressured campus administrations to institute programs and services the students themselves deemed necessary to their success and welfare on campus College women learned to navigate campus life without the special protections and pre established women s community that in loco parentis policies and women s self government had once provided

Trans* in College Z Nicolazzo, 2023-07-03 WINNER of 2017 AERA DIVISION J OUTSTANDING PUBLICATION AWARD CHOICE 2017 Outstanding Academic Title This is both a personal book that offers an account of the author s own trans identity and a deeply engaged study of trans collegians that reveals the complexities of trans identities and how these students navigate the trans oppression present throughout society and their institutions create community and resilience and establish meaning and control in a world that assumes binary genders This book is addressed as much to trans students themselves offering them a frame to understand the genders that mark them as different and to address the feelings brought on by the weight of that difference as it is to faculty student affairs professionals and college administrators opening up the implications for the classroom and the wider campus This book not only remedies the paucity of literature on trans college students but does so from a perspective of resiliency and agency Rather than situating trans students as problems requiring accommodation this book problematizes the college environment and frames trans students as resilient individuals capable of participating in supportive communities and kinship networks and of developing strategies to promote their own success Z Nicolazzo provides the reader with a nuanced and illuminating review of the literature on gender and sexuality that sheds light on the multiplicity of potential expressions and outward representations of trans identity as a prelude to the ethnography ze conducted with nine trans collegians that richly documents their interactions with and responses to environments ranging from the unwittingly offensive to explicitly antagonistic The book concludes by giving space to the study s participants to themselves share what they want college faculty staff and students to know about their lived experiences Two appendices

respectively provide a glossary of vocabulary and terms to address commonly asked questions and a description of the study design offered as guide for others considering working alongside marginalized population in a manner that foregrounds ethics care and reciprocity

Intersectionality and Higher Education W. Carson Byrd, Rachele J. Brunn-Bevel, Sarah M. Ovink, 2019-05-03 Though colleges and universities are arguably paying more attention to diversity and inclusion than ever before to what extent do their efforts result in more socially just campuses Intersectionality and Higher Education examines how race ethnicity class gender sexuality sexual orientation age disability nationality and other identities connect to produce intersected campus experiences Contributors look at both the individual and institutional perspectives on issues like campus climate race class and gender disparities LGBTQ student experiences undergraduate versus graduate students faculty and staff from varying socioeconomic backgrounds students with disabilities undocumented students and the intersections of two or more of these topics Taken together this volume presents an evidence backed vision of how the twenty first century higher education landscape should evolve in order to meaningfully support all participants reduce marginalization and reach for equity and equality
