*Fallen Dragon* Peter F. Hamilton, 2008-11-15 A fascinating compulsively readable clash of hardware and ideals in a stand alone space opera from an acclaimed sci fi author Kirkus Reviews starred review In the distant future corporations have become sustainable communities with their own militaries and corporate goals have essentially replaced political ideology On a youthful rebellious impulse Lawrence joined the military of a corporation that he now recognizes to be ruthless and exploitative His only hope for escape is to earn enough money to buy his place in a better corporation When his platoon is sent to a distant colony to quell a local resistance effort it seems like a stroke of amazing fortune and Lawrence plans to rob the colony of their fabled gemstone the Fallen Dragon to get the money he needs However he soon discovers that the Fallen Dragon is not a gemstone at all but an alien life form that the local colonists have been protecting since it crashed in their area Now Lawrence has to decide if he will steal the alien to exploit the use of its inherent biotechnical processes which far exceed anything humans are capable of or if he will help the Resistance get the alien home One of Hamilton's best undeniably a page turner Publishers Weekly starred review
