

Economic Integration: Limits and Prospects

Edited by George C. Bitros, Professor of Economics, Athens Economic and Business University and George M. Korres, University of Aegean, Department of Geography

Palgrave - MacMillan

Economic integration is the most noteworthy issue in international economic policy at the end of the twentieth century. The recent successful examples of the European Union (EU) and the North American Free Trade Association (NAFTA) have raised some important questions about the economic integration process and the possible establishment of economic unions in other parts of the world. This book makes an important contribution to the investigation of this topic.

The book is intended to provide a basic understanding of the current issues in and the problems of economic integration and it examines many aspects and consequences of this integration that are obscure or as yet unexplored. After addressing general issues in the field of economic integration, the discussion turns to empirical and theoretical aspects of monetary union, social policy reform and social union, public finance and technology policy. In particular, with its wide range of topics, methodologies and perspectives, the book offers stimulating and wide-ranging analyses that will be of interest to students, economic theorists, empirical social scientists, policy makers and the informed general reader.

The volume comprises four parts. Part 1 is devoted to macro-economic issues and the problems of economic integration. The chapters in this part contain theoretical and empirical analyses of economic integration, the European Union and the monetary system. Part 2 investigates the microeconomic implications of economic integration with regard to manufacturing, foreign direct investment, unemployment and fertility. Part 3 deals with institutional matters and the policies of integration, including technology policy, shipping policy, the distribution of EU funds, regional development and productivity problems. Finally, Part 4 discusses the challenges for an integrated Europe, with emphasis on social policy, the welfare state, political reforms and privatisation.

Book Review by Christos Ladias, RSI Journal Publisher - Manager

Economic Integration Limits And Prospects

Miroslav N. Jovanovi_

Economic Integration Limits And Prospects:

Economic Integration G. Bitros,G. Korres,2001-12-05 This book is intended to provide a basic understanding of current issues and problems of economic integration Identifying economic integration as one of the main features of modern international economics the authors examine its many aspects and consequences which remain as yet obscure and unexplored After addressing general issues regarding economic integration the authors include empirical theoretical analyses of the monetary union social policy reform social union public finance and technological policies **European Economic Integration** Miroslav Jovanovic,2002-09-11 In this major new text Miroslav N Jovanovic presents an analysis of all the major aspects of economic integration in the European Union Beginning with an overview of the origins of European integration he moves on to discuss in detail all the main policy areas These include monetary policy competition policy industrial policy fiscal policy trade policy the Common Agricultural Policy foreign direct investment regional policy The volume also includes a discussion of less well known policy areas such as social policy environmental policy and transport policy Containing an excellent blend of theory and practice and presenting a highly complex issue in an accessible and non technical way this text will be an invaluable resource for students of international economics international business and European studies The Economics of European Integration Miroslav N. Jovanovi ,2013-01-01 Acclaim for the first edition The book is essential for students in European studies international economics and business or international relations at both graduate and postgraduate level Ricardo Pinheiro Alves The Times Higher Education Supplement Thoroughly revised and updated the second edition of this highly acclaimed textbook will be required reading for graduate and undergraduate students on a wide range of courses including European economics economic policy European integration European studies and international relations Exploring the EU at an important turning point and during uncertain and turbulent times the text will also prove an invaluable reference tool for academics and policy makers concerned with any facet of European integration Comprehensive and accessible this far reaching text provides in depth state of the art analysis of the origins achievements and prospects of principal EU economic policies covers all EU member countries as well as candidate countries sets scenarios for future EU policy and organisational evolution prescribes possible paths and directions for the EU not only for economic policies but also for organisational structure features supplementary data via a companion website Topics explored in detail include EU budget competition policy Common Agricultural Policy fiscal integration monetary integration industrial policy in manufacturing and services trade policy and international economic cooperation regional policy social policy mobility of labour energy policy transport policy environment policy and enlargement *International Economic Integration* Miroslav Jovanovic,2006-09-07 This new edition of International Economic Integration has been fully revised and updated to reflect current developments in this increasingly important area New features include Completely new introduction and conclusion Chapter added on integration schemes which includes discussion of the East and the

enlargement of the European Union Chapter on the Common Market expanded to include new developments in capital mobility and industrial policy new real life examples quantitative studies and statistical material Treatment of issues even more accessible following feedback from first edition Building on the reputation of the highly successful first edition this volume will continue to be considered the definitive work on the subject and to be a vital reference for students of international economics

European Economic Integration Miroslav N. Jovanovic,1997 **European Economic Integration** Miroslav N. Jovanović,1997 **The Economics of European Integration** Miroslav N. Jovanović,2005 It is of paramount importance that European firms investors and countries take into consideration the implications changes and opportunities of European integration in their decision making processes This is reinforced by the fact that the EU has been continuously evolving and enlarging This textbook is one of the first to cover the subject of the economics of the EU including all 25 member countries as well as several other potential candidate countries Miroslav Jovanovi argues that monetary union and eastern enlargement have amplified existing discrepancies among the member countries For example the introduction of the euro highlighted the different speeds at which economic policy in the EU moves Twelve member countries joined the eurozone but more than half of the 25 EU member countries remain outside this most profound economic project in the EU either by choice Britain Denmark and Sweden or by ineligibility the ten countries that entered the EU in 2004 There is also the added complication of general public suspicion about the EU and a number of its projects With this in mind this textbook looks at the origin development and potential limits and prospects of the process of European integration by considering the principal EU economic policies The book also discusses topics such as foreign direct investment transnational corporations and the location of firms and industries The complex material is presented in a reader friendly way yet underpinned by a sound theoretical framework and revealing examples This accessible and approachable text is aimed at upper level students in the fields of European studies economics particularly international economics business studies international relations and economic geography

The Economics of European Integration Miroslav N. Jovanović,2005 Trade Policy 8 **Technical Change and Economic Growth** George M. Korres,2016-12-05 Technological change is not only a determinant of growth but is also a pivotal factor in international competition and the modernization of an economy In one of the most in depth and detailed studies of its kind George Korres analyzes the macroeconomic and the microeconomic factors influencing the economics of innovation and the economic relations between technology innovation knowledge and productivity In particular this book examines both the theoretical framework and the applications for empirical results This second edition contributes updated figures and estimations for technical change from EU member states and features new subjects including growth models productivity models production function models and non parametric models In one of the most in depth and detailed studies of its kind this book captures all the existing contemporary techniques in the theoretical fields as well as the empirical applications of the models

Evolutionary Economic Geography Miroslav Jovanovic,2008-10-07 The purpose of

this book is to provide a guided tour through the theoretical foundations of spatial locations of firms and industries in an evolutionary economic framework It addresses the issues of how a location of business in geographical space is selected and where economic activity may re locate in the future The analysis is in the context **Europa** Giuseppe Casale,2002

Economia Dell'allargamento Dell'Unione Europea Franco Praussello,2003 **Adjusting to EU Enlargement**

Constantine A. Stephanou,2006-01-01 Before the latest EU enlargement substantial changes in the integration process were predicted as a result of the accession of 10 new member states with some forecasting cataclysmic consequences This book the first ex post assessment of EU enlargement provides evidence to the contrary while also providing examples in which the new members have been able to influence the EU policy output with their liberal attitudes on economic and social policy

The Economics of International Integration Miroslav N. Jovanović,2006 The splintering of the multilateral trading system into a number of trading blocs and arrangements has been one of the most important issues in international economics particularly after the establishment of the World Trade Organisation in 1995 and especially after the launch of the Doha Round in 2001 International economic integration has played a significant part in the economic policy decisions for most countries and regions throughout the world over decades If this is so why then has the success of integration schemes been so variable And what are the prospects for integration in the future Is integration a building or a stumbling block on the way to universal free trade This book addresses these crucial questions The book builds on and extends earlier research and publications by the author and presents new and up to date material The author continues to broaden and deepen traditional integration theory using a new model that incorporates market imperfections such as economies of scale foreign direct investment and an evolutionary approach to the spatial location of firms and industries This reflects modern approaches to trade competition investment and the geographical distribution of production The main theoretical types of integration free trade areas customs unions common markets and economic unions are discussed in detail with the help of a number of practical examples These considerations have a European slant as this is the area where economic integration has the deepest meaning and because the EU serves as a model for a number of integration groups elsewhere in the world The book also covers integration in the Americas the Pacific region South East Asia and Africa The concluding chapter outlines the accumulated experiences of economic integration throughout the world and provides guidelines to assist in steering integration through the mist that obscures the future Providing an excellent understanding of the complex issues involved with international economic integration this volume will be extremely valuable for students of international economics development and international business [China's International Relations in Asia: China and Asian regional multilateralism](#) Mingjiang Li,2010 This new Major Work is fully indexed and includes a comprehensive index newly written by the editor which places the collected material in its historical and intellectual context It is destined to be valued by scholars students and researchers **Bibliographie Mensuelle** United Nations Library (Geneva, Switzerland),1997-07 **The Dimensions**

of Regional Trade Integration in Southeast Asia Mohammed Zakirul Hafez,2004 This is the first comprehensive work on the free trade area of the Association of Southeast Asian Nations ASEAN Free Trade Area AFTA The author argues that in practice the free trade area of ASEAN is a failure and that unless AFTA leaders take serious measures to improve it it will change from being not that useful into being completely useless Published under the Transnational Publishers imprint
