

Singapore: A global example of urban sustainability

Econnected World

William Thompson Bonner

Econnected World:

Handbook of Research on ePortfolios Jafari, Ali, Kaufman, Catherine, 2006-05-31 This handbook investigates a variety of ePortfolio uses through case studies the technology that supports the case studies and it also explains the conceptual thinking behind current uses as well as potential uses Provided by publisher

Society and the Environment Michael Carolan, 2018-05-15 *Society and the Environment* examines today's environmental controversies within a socio-organizational context After outlining the contours of pragmatic environmentalism Carolan considers the pressures that exist where ecology and society collide such as population growth and its associated increased demands for food and energy He also investigates how various ecological issues such as climate change are affecting our very own personal health Finally he drills into the social structural dynamics including political economy and the international legal system that create ongoing momentum for environmental ills This interdisciplinary text features a three part structure in each chapter that covers fast facts about the issue at hand examines its wide ranging implications and offers balanced consideration of possible real world solutions New to this edition are Movement Matters boxes which showcase grassroots movements that have affected legislation Discussion questions and key terms enhance the text's usefulness making *Society and the Environment* the perfect learning tool for courses on environmental sociology

Society and the Environment Michael S Carolan, 2020-03-10 Without focusing entirely on what is wrong with the world around us the third edition of *Society and the Environment* centers its discussion on realistic solutions to the problems that persist and examines current controversies within a socio-organizational context After introducing pragmatic environmentalism Carolan discusses the complex pressures and variables that exist where ecology and society collide such as population growth and the concurrent increase in demands for food and energy and transportation and its outsized influence on urban and community patterns With further attention given to the social phenomena and structural dynamics driving today's environmental problems the book concludes with an important reflection on truly sustainable solutions and what constitutes meaningful social change Each chapter in this interdisciplinary text follows a three part structure beginning with an overview of what is wrong and why This leads into a discussion on each issue's wide ranging implications and finally a balanced consideration of realistic solutions Featuring updated and expanded examples discussion points and coverage of recent developments including the US withdrawing from the Paris Agreement booming national economies and wealth distribution growing global interest in environmental justice with particular focus on the links between injustice and race and inequality climate change and renewable energy this new edition remains an essential companion for courses on environmental sociology and sustainability
