Focus On: 100 Most Popular Television Series by Warner Bros. Television Wikipedia contributors, **Discovering the Truth About Discipleship - Volume One** Douglas Bennett, **Hollywood v. Beauty and the Synchronicity of the Six** Kirk Henderson, 2020-05-04 Hollywood v Beauty and the Synchronicity of the Six presents the biographies of six movie actresses from the 1920s to the 1970s with a single actress representing her decade of activity Louise Brooks 1920s Jean Harlow 1930s Hedy Lamarr 1940s Barbara Payton 1950s Jean Seberg 1960s and Sondra Locke 1970s The synchronicity between the lives of these women is phenomenal and their stories are as dramatic and exciting as any to come from that town stretching all the way from complete ruination to thrilling triumph Along the way the story of movies in the Golden Age unfolds as six movie actresses try to survive in the most artificial place on Earth The power elite of Hollywood could transform unknowns into movie stars or erase the famous into oblivion Since beauty has its own innate power it is inevitable these two entities would face off **Recapturing the Joy** Deborah Anthony, 2006 The Art of Journaling has been designed to act as a catalyst for people who perhaps have thought about stepping into the journaling arena but haven't as yet done so for whatever reason In my view there are four main components required to successfully journal All of which need to be conducive to each other and all connected to the person journaling As is a common theme in all of my Recapturing the Joy series books this Volume 3 is no different in that it too reveals common sense truths that work toward helping us get rid of what might be holding us back In this instance it is relative to The Art of Journaling Much love Deborah **Inclusive Place Branding** Mihalis Karavatzis, Massimo Giovanardi, Maria Lichrou, 2017-11-22 Place branding is often a response to inter place competition and discussed as if it operated in a vacuum ignoring the needs of local communities It has developed a set of methods catchy slogans colourful logos star architects bidding for City of Culture status etc that are applied as quick fix solutions regardless of geographical and socio political contexts Critical views of place branding are emerging which focus on its unexplored consequences on the physical and social fabric of places These more critical approaches reveal place branding as an essentially political activity serving hidden agendas and marginalizing social groups Scholars and practitioners can no longer ignore the need for more responsible and socially sensitive approaches to cater for a wider range of stakeholders and which fully acknowledge the importance of resident participation in decision making The contributions in this innovative book set out to introduce new critical ways of thinking around place branding and practices that encourage it to be more inclusive and participatory It will be of interest to researchers and advanced students of branding critical marketing and destination marketing as well as critical tourism and environmental design **Minor Ethics** Casey Ford, Suzanne M. McCullagh, Karen L.F. Houle, 2021-04-15 Alongside the major narratives of ethics in the tradition of Western philosophy a reader with an eye to the vague and the peripheral to the turbulent and shifting will spy minor lines of thinking and with them new histories and thus new futures Minor Ethics develops a new approach to reading texts from the history of

philosophical ethics It aims to enliven lines of thought that are latent and suppressed within the major ethical texts regularly studied and taught and to include texts and ideas that have been excluded from the canon of Western ethics The editors and contributors have put Gilles Deleuze s concepts such as affect assemblage and multiplicity into conversation with a range of ethical texts from ancient thought to the present Rather than aiming for a coherent whole to emerge from these threads the essays maintain a vigilant alertness to difference to vibrations and resonances that are activated in the coupling of texts What emerges are new questions new problems and new trajectories for thinking which have as a goal the liberation of ethical questioning Minor Ethics takes up a range of canonical ethical questions and thinks through concrete ethical problems relating to drug addiction environmental responsibility xenophobia trauma refugees political parties and cultural difference The responses to these concerns demonstrate the minoritarian promise of the opening up of ethical thinking
