Freedom of the Press Vs. Public Access Benno C. Schmidt,1976 **Freedom of the Press** Nancy C. Cornwell,2004-11-15 An authoritative yet accessible analysis of the historical development and contemporary scope of press freedoms in America Freedom of the Press Rights and Liberties under the Law examines the evolution of press freedom in America a particularly relevant topic given the controversy over the role of the press in the war in Iraq as well as the growing concentration of ownership of the press and the impact of the Internet on traditional journalism An opening analysis of challenges from recent developments like Internet journalist Matt Drudge s Drudge Report illustrates the opportunities and implications of a press operating without the traditional gate keeping process A historical overview of philosophical ideas and English traditions precedes an exploration into the judicial regulatory social political and economic developments that have shaped press freedoms addressing such issues as libel free press versus fair trial and access to courtrooms A chapter is devoted to the impact of new communication and transmission technology such as videophones and satellites *A Letter to the Press - Partisan Media, Propaganda, and Post-Truth Politics in the American Century* Stephen Bates,2020-10-27 The story behind the 1940s Commission on Freedom of the Press

groundbreaking then timelier than ever now Bates skillfully blends biography and intellectual history to provide a sense of how the clash of ideas and the clash of personalities intersected Scott Stossel American Scholar A well constructed timely study clearly relevant to current debates Kirkus starred review In 1943 Time Inc editor in chief Henry R Luce sponsored the greatest collaboration of intellectuals in the twentieth century He and University of Chicago president Robert Maynard Hutchins summoned the theologian Reinhold Niebuhr the Pulitzer winning poet Archibald MacLeish and ten other preeminent thinkers to join the Commission on Freedom of the Press They spent three years wrestling with subjects that are as pertinent as ever partisan media and distorted news activists who silence rather than rebut their opponents conspiracy theories spread by shadowy groups and the survivability of American democracy in a post truth age The report that emerged A Free and Responsible Press is a classic but many of the commission s sharpest insights never made it into print Journalist and First Amendment scholar Stephen Bates reveals how these towering intellects debated some of the most vital questions of their time and reached conclusions urgently relevant today **The Press** Geneva Overholser, Kathleen Hall Jamieson, 2005-05-26 With the guidance of editors Geneva Overholser and Kathleen Hall Jamieson this superb collection of essays written by the nation s leading authorities on journalism illuminates the role of the press in a democracy investigating alternative models used throughout world history to better understand how the American press has evolved into what it is today The book also examines the history identity roles and future of the American press with an emphasis on topics of concern to both practitioners and consumers of American media Media and the Common Good Chaacha Mwita, G. Franceschi, 2010 On 30th December 2008 the President of Kenya His Excellency Mwai Kibaki assented to the controversial Kenya Communications Amendment Act 2008 which commenced on 2nd January 2009 This Presidential move had a deep impact on the long discussions arguments and negotiations that were already in high gear by October 2006 when the Fourth Annual Ethics Conference on Media and the Common Good was held at Strathmore University Nairobi Kenya The essays in this book make a case for media freedom as well as media responsibility Let the media create a culture of truth Let the media not forsake the citizens let them seek and disseminate the truth let them not destroy the education virtues and faith for which so many have shed their blood in Kenya Africa and elsewhere May reason prevail guided by wisdom towards Truth **Laws of Our Fathers** Ray Broadus Browne, 1986 The essays in this book trace many of the multitudinous forces at work on the Constitution and in the popular culture and show how the forces control and benefit each other The subject is of profound importance and beginning with these essays needs to be studied at great length for the benefit of us all Resources in Education , 1977 **Public Access Television** Laura Linder, 1999-07-30 As Laura Linder asserts increased concentration of media ownership has resulted in the homogenization of public discourse Packaged commercialized messages have replaced the personalized and localized opinions necessary for the uninhibited marketplace of ideas envisioned in the First Amendment Narrowcast outlets such as talk radio give vent to individual voices but only to a limited predefined audience The

media have led a social shift toward splintering and compartmentalization away from pluralism and consensus Public access television provides an alternative to this trend requiring active public participation in the process of developing community based programming through the dominant medium of television Today more than 2 000 public access television centers exist in the United States producing more than 10 000 hours of original local programming every week But public access television remains underutilized even as deregulation and growing interest in other telecommunications delivery systems pose a potential threat to the long term viability of public access television In this comprehensive review of the background and development of public access television Linder offers all the information needed to understand the theoretical and philosophical underpinnings as well as the nuts and bolts of public access television in the United States Must reading for students and scholars involved with mass media in the United States and professionals in the television field In the Public Interest National News Council (U.S.),1975 **The Press and American Politics** Richard Dana Davis,1992 This book analyzes the power of the American print and electronic press in the political process Davis argues that the press has greater autonomy than at any time in the more than 200 years of U S history but as an intermediary between the government and the governed its greatest power is to set agendas not to dictate political opinions on the agenda items Despite recent gains in autonomy the electronic media still are less free of government influence than are print media Part 1 characterizes the news gatherers and the newsmakers Part 2 describes the evolution of the political role of the media through U S history Part 3 describes how the press treats each of the three branches of the Federal government Part 4 deals with coverage of foreign affairs and public policy and Part 5 with coverage of campaigns and elections ISBN 0 8013 0153 X 20 00 **Public Affairs Information Service Bulletin** ,1923 **Michigan Law Review** ,1984 **Information Law Towards the Twenty-First Century** Willem F. Korthals Altes,1992-11-16 3 Dutch media law **Public Interest and the Business of Broadcasting** Jon Powell,Wally Gair,1988-08-16 This volume offers 16 essays most original offering varied broadcast industry views on the role of the public interest in changing business Editors Powell and Gair respectively a long time member of the Northern Illinois University communications faculty and an Illinois broadcaster provide a brief contextual introduction to each contribution and give the background of each author The book according to the preface is intended to offer candid and genuine descriptions of what the public interest obligation actually means to the practitioner broadcaster The volume is best seen as an indicator of the changing public interest perceptions of broadcasters amid a rapidly changing marketplace As such it is useful for undergraduates interested in today s communications industry Choice This volume presents a broad cross section of views on an issue of central importance to the broadcast industry Can the broadcast industry serve both the public interest and corporate and stockholder interest How do the leaders and successful professionals of the broadcast industry interpret and implement the public interest obligation A cross section of American broadcasters from network executives to small market radio station managers from the president of the National Association of Broadcasters to a former FCC
