David Sally

Economics March Common Test Question Paper And Memorandum 2014:

One Step Ahead David Sally, 2020-05-05 There's been a revolution in negotiating tactics. The world's best negotiators have moved beyond *How to Win Friends Influence People* and *Getting to Yes*. For over twenty years David Sally has been teaching the art of negotiation at leading business schools and to executives at top companies. Now he delivers the proven, clear, actionable insights you need to stay competitive in an ever-changing marketplace. *One Step Ahead* offers the fundamental wisdom that elevates the sophisticated negotiator above everyone else. Readers will gain the advantage in everything from determining when to negotiate and deciphering a game strategically to understanding which personality traits matter, why emotions are not necessarily to be avoided, and how to be tough and fair. You'll learn to be round on the outside and square on the inside, how to command the idiom, why to avoid bumping into the furniture, and how to achieve mastery of the word and the number. While all of life is not a negotiation, Sally says a negotiation incorporates all of life. *One Step Ahead* is for anyone and everyone who bargains, parents, managers, buyers, sellers, emotes, and engages. Based on cutting-edge studies and real-world results, and drawing parallels to everything from the NBA to the con game to Machiavelli, Xi Jinping, and Barack Obama, *One Step Ahead* upends conventional wisdom to make sure that you have what it takes to stay one step ahead, no matter whom you are facing across the table.

Streaming and Copyright Law Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective. It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright. By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses, it argues for strengthening end user rights. The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings, cinematographic films, and radio and television broadcasts is used on the internet. Superseding the conventional method of downloading, using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement. These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming. It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part. Conversely, the fair dealing defence in Australia cannot be used aptly to defend end users' acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review, news reporting, parody or satire, or research or study. When considering a temporary copy exception, end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content, even if they lack any knowledge about the content's infringing nature. Moreover, the grey areas in circumventing geo-blocking have made end users hesitant to access websites through streaming because it is not clear

whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
