Visual Metaphor and Drawn Narratives John Miers, 2026-01-01 This book contributes to metaphor and comics scholarship by bringing together established theories of metaphor and of depiction and applying the result to the analysis of narrative drawing Miers synthesizes two strands in recent comics scholarship the analysis of comics as drawn texts informed by art history and aesthetic philosophy and the use of contemporary metaphor theory as a lens to examine how meaning is produced in comics It aims to enrich and substantiate claims about the metaphorical characteristics of pictorial representations and develop our understanding of how metaphor use is guided by stylistic features of drawing that are characteristic of the comics form

Drawn from the Classics Stephen E. Tabachnick, Esther Bendit Saltzman, 2015-05-13 The graphic novel is the most exciting literary format to emerge in the past thirty years Among its more inspired uses has been the superlative adaptation of literary classics Unlike the comic book abridgments aimed at young readers of an earlier era today's graphic novel adaptations are created for an adult audience and capture the subtleties of sophisticated written works This first ever collection of essays focusing on graphic novel adaptations of various literary classics demonstrates how graphic narrative offers new ways of understanding the classics including the works of Homer Poe Flaubert Conrad and Kafka among many others
