Ward, 2016-03-14 The title of this book is taken from Ebenezer Howard's visionary tract *To-morrow: A Peaceful Path to Real Reform* Published in 1898 as a manifesto for social reform via the creation of Garden Cities it proposed a new way of providing cheap and healthy homes workplaces and green spaces in balance in cohesive new communities underpinned by radical ideas about collective land ownership While Howard's vision had international impact in this book planning historian Stephen Ward largely honors the special place that Hertfordshire occupies on the peaceful path beginning with the development of Letchworth and Welwyn Garden Cities Both were established with Howard's personal involvement and slowly achieved most of his aims both also emerged as havens for liberal minded creative largely temperate communities Stephen Ward then recounts in detail how the New Towns programme was created by the post war British Government as an alternative way of realising Howard's vision Although state involvement was not what Howard had wanted the new approach overcame financial problems to allow faster development while maintaining the principle of collective though no longer local land ownership During this dynamic era of new thinking in all areas of government Hertfordshire was once again in the vanguard with bold and imaginative New Towns that met real social needs being created at Stevenage and Hemel Hempstead as well as at Hatfield and Welwyn Garden City By 2011 over a quarter of Hertfordshire's population lived in its Garden Cities and New Towns Nowhere else in the UK or indeed the world came so close to Howard's dream The Garden City idea was admired globally inspiring innovative planned settlements from Scandinavia to the United States from the USSR to Australia Yet this is not just a work of history *The Peaceful Path* also examines the contemporary relevance of Howard's vision Today's politicians faced with a severe housing shortfall and rampant property prices in London and other hotspots are again turning to the idea of the Garden City Howard's vision endures *Being boys* Melanie Tebbutt, 2017-10-03 This original and fresh approach to the emotions of adolescence focuses on the leisure lives of working class boys and young men in the inter war years *Being Boys* challenges many stereotypes about their behaviour It offers new perspectives on familiar and important themes in interwar social and cultural history ranging from the cinema and mass consumption to boys clubs personal advice pages street cultures dancing sexuality mobility and the body It draws on many autobiographies and personal accounts and is particularly distinctive in offering an unusual insight into working class adolescence through the teenage diaries of the author's father which are interwoven with

the book's broader analysis of contemporary leisure developments Being Boys will be of interest to scholars and students across the humanities and social sciences and is also relevant to those teaching and studying in the fields of child development education and youth and community studies
