## **Hegels Quest For Certainty:**

*Hegel's Quest For Certainty* Joseph C. Flay, 1985-06-30 In a major contribution to Hegel scholarship Professor Flay has written two books in one The first is a close and original reading of the Phenomenology of Spirit and the second an invaluable source book containing a bibliography more than 450 titles and footnotes which discuss in detail the secondary resource material

**Hegel's Theory of Madness** Daniel Berthold-Bond, 1995-01-01 This book shows how an understanding of the nature and role of insanity in Hegel's writing provides intriguing new points of access to many of the central themes of his larger philosophic project Berthold Bond situates Hegel's theory of madness within the history of psychiatric practice during the great reform period at the turn of the eighteenth century and shows how Hegel developed a middle path between the stridently opposed camps of empirical and romantic medicine and of somatic and psychical practitioners A key point of the book is to show that Hegel does not conceive of madness and health as strictly opposing states but as kindred phenomena sharing many of the same underlying mental structures and strategies so that the ontologies of insanity and rationality involve a mutually illuminating mirroring relation Hegel's theory is tested against the critiques of the institution of psychiatry and the very concept of madness by such influential twentieth century authors as Michel Foucault and Thomas Szasz and defended as offering a genuinely reconciling position in the contemporary debate between the social labeling and medical models of mental illness

The Quest for Certainty John Dewey, 1929 These eleven lectures were originally presented by John Dewey at the University of Edinburgh in 1929 when he was seventy years old They represent his most mature thinking on the theory of knowledge and how it relates to human behavior

Hegel's Hermeneutics Paul Redding, 1996 An advance on recent revisionist thinking about Hegelian philosophy this book interprets Hegel's achievement as part of a revolutionary modernization of ancient philosophical thought initiated by Kant

**Hegel's Transcendental Induction** Peter Simpson, 1998-01-01 Hegel's Transcendental Induction challenges the orthodox account of Hegelian phenomenology as a hyper rationalism arguing that Hegel's insistence on the primacy of experience in the development of scientific knowledge amounts to a kind of empiricism or inductive epistemology While the inductive element does not exclude an emphasis on deductive demonstration as well Hegel's phenomenological description of knowledge demonstrates why knowing becomes scientific only to the extent that it recognizes its dependence on experience Simpson's argument closely parallels Hegel's own in the Phenomenology of Spirit highlighting those sections like Hegel's analysis of mastery and slavery that contribute to the argument that knowing is both vulnerable and responsive to the way in which experience resists our attempts to make sense of things Simpson's argument connects his account of Hegelian phenomenology with traditional accounts of induction and with a number of other commentators The central thesis about the inductive development of the Phenomenology is worked out with care This thesis allows the author to present fresh and often compelling re-readings of such often commented on themes as the natural consciousness desire slavery morality and forgiveness Since Hegel himself does not

describe his method in terms of induction this book suggests a truly interesting shift of perspective on the Phenomenology

Daniel Berthold Bond Bard College     **The Search for Concreteness** Darrel E. Christensen, 1986-09 Presents a methodological basis for a philosophy of concrete actuality Also breaks new ground in its mediation between two varied traditions of speculative philosophy     *Hegel's Ladder* H. S. Harris, 1997-03-10 A two volume set Print edition available in cloth only Awarded the Nicholas Hoare Renaud Bray Canadian Philosophical Association Book Prize 2001 From the Preface Hegel's Ladder aspires to be a literal commentary on Die Ph nomenologie des Geistes It was the conscious goal of my thirty year struggle with Hegel to write an explanatory commentary on this book and with its completion I regard my own working career as concluded The prevailing habit of commentators is founded on the general consensus of opinion that whatever else it may be Hegel's Phenomenology is not the logical Science that he believed it was This is the received view that I want to overthrow But if I am right then an acceptably continuous chain of argument paragraph by paragraph ought to be discoverable in the text     *Recognition* Robert R. Williams, 1992-03-04     **The Bulletin of the Hegel Society of Great Britain** ,2003     *The Kantianism of Hegel and Nietzsche* Robert L. Zimmerman, 2005 Seeks to question the conventional way historians have treated the relationship between Kant and Hegel and Kant and Nietzsche This text suggests a different way to understand these philosophers by showing that their relationship is one of renovation Hegel and Nietzsche both keep parts of Kant while rejecting other parts     *Selected Essays on G.W.F. Hegel* Lawrence S. Stepelevich, 1993     *On Hegel's Epistemology and Contemporary Philosophy* Tom Rockmore, 1996 Aimed at specialists as well as graduate and select undergraduate students this study centers on Hegel's important but neglected theory of knowledge Professor Rockmore interprets Hegel as reacting to the Kantian effort to reformulate epistemology in the wake of what Kant contends is the failure of earlier dogmatic theories Recent work has shown that Hegel's epistemology is a good deal more respectable than has usually been thought Rockmore's aim is to continue that work in order to bring Hegel into the main discussion of knowledge Rockmore's main argument for the relevance of Hegel's theory to the problem of knowledge is that with the apparent failure of foundationalism Hegel's antifoundationalist theory that sees knowledge as perspectival and historical supplies two items helpful to advance the epistemological discussion     **The Transition from "consciousness" to "self-consciousness" in Hegel's Phenomenology of Spirit** Jon Bartley Stewart, 1992     **Hegel's Aesthetic Theory and the Critique of Romanticism** Charles Senger, 1991     *The Logic of Hegel's 'Logic'* John W. Burbidge, 2006-03-28 George Wilhelm Friedrich Hegel has seldom been considered a major figure in the history of logic His two texts on logic both called *The Science of Logic* both written in Hegel's characteristically dense and obscure language are often considered more as works of metaphysics than logic But in this highly readable book John Burbidge sets out to reclaim Hegel's *Science of Logic* as logic and to get right at the heart of Hegel's thought Burbidge examines the way Hegel moves from concept to concept through every chapter of his work and traces the origins of Hegel's effort to think through the way thought thinks to Plato

Kant and Fichte Having established the framework of Hegel's logical thought Burbidge demonstrates how Hegel organized the rest of his system including the Philosophy of Nature Philosophy of Spirit and his Lectures on World History Art Religion and Philosophy A final section discusses English language interpretations of Hegel's logic from the nineteenth through twentieth centuries Burbidge's *The Logic of Hegel's Logic* is written with an eye to the reader of general interests avoiding as much as possible the use of Hegel's technical vocabulary It is an excellent introduction to an otherwise very difficult text and has recently appeared in an Iranian translation     **Death and Desire in Hegel, Heidegger and Deleuze** Brent Adkins,2007 This book places Hegel Heidegger and Deleuze in conversation with one another which results in a new joyful way of thinking about death     **The Review of Metaphysics** ,1989     **Proceedings of the American Catholic Philosophical Association** American Catholic Philosophical Association,1994 Includes a list of members     [Hegel on the Ethical Life, Religion and Philosophy](#) A. Wylleman,1989-04-30     [JBSP](#) British Society for Phenomenology,1986
