Heaven Hell History:

Heaven and Hell Bart D. Ehrman, 2020-03-31 A New York Times bestselling historian of early Christianity takes on two of the most gripping questions of human existence where did the ideas of heaven and hell come from and why do they endure What happens when we die A recent Pew Research poll showed that 72% of Americans believe in a literal heaven and 58% believe in a literal hell Most people who hold these beliefs are Christian and assume they are the age old teachings of the Bible But eternal rewards and punishments are found nowhere in the Old Testament and are not what Jesus or his disciples taught So where did these ideas come from In this eloquent understanding of how death is viewed through many spiritual traditions Publishers Weekly starred review Bart Ehrman recounts the long history of the afterlife ranging from The Epic of Gilgamesh up to the writings of Augustine focusing especially on the teachings of Jesus and his early followers He discusses ancient guided tours of heaven and hell in which a living person observes the sublime blessings of heaven for those who are saved and the horrifying torments of hell for those who are damned Some of these accounts take the form of near death experiences the oldest on record with intriguing similarities to those reported today One of Ehrman s startling conclusions is that there never was a single Greek Jewish or Christian understanding of the afterlife but numerous competing views Moreover these views did not come from nowhere they were intimately connected with the social cultural and historical worlds out of which they emerged Only later in the early Christian centuries did they develop into notions of eternal bliss or damnation widely accepted today In this elegant history The New Yorker Ehrman helps us reflect on where our ideas of the afterlife come from With his richly layered narrative The Boston Globe he assures us that even if there may be something to hope for when we die there certainly is nothing to fear *Jonathan Edwards's Theology: A Reinterpretation* Kyle C. Strobel, 2012-11-29 This volume provides an interpretative key to Jonathan Edwards s theology developed from within his own doctrinal constructs Strobel offers a dogmatic exposition of Edwards s theology by unveiling the trinitarian architecture of his thought Building upon this analysis Strobel applies his construct to reinterpret three key areas of redemption debated widely in the secondary literature spiritual knowledge regeneration and religious affection In order to achieve this purpose Strobel s approach is theological rather than philosophical employing Edwards s self confession as a Reformed theologian to guide his analysis In advancing a theological reading of Edwards Strobel focuses on the systematic nature of Edward s theology ordering it according to his doctrinal affirmations This necessitates as many Edwards scholars now affirm a primary focus on Edwards s trinitarian theology where the Trinity serves as the key ontological principle which orders the whole of his doctrinal construction By grounding the interpretive key in Edwards s understanding of the Trinity Strobel s idiosyncratic exposition of his doctrine of the Trinity serves to recast Edwards s theology in a new light *The Community of Nuchi Du Takara ("Life Is the Ultimate Treasure") in Postwar Okinawa* Masamichi (Marro) Inoue, 2025-02-10 Against the background of the prolonged US military presence in post World War II Okinawa The Community of Nuchi Du Takara Life Is the Ultimate

Treasure in Postwar Okinawa explores the conflict between Okinawa and the US Japan alliance Developing the local notion of nuchi du takara into an analytical concept Inoue examines how Okinawan activists artists writers and other social actors have resisted US military presence particularly the planned construction of a new military facility in northern Okinawa The concept of nuchi du takara also helps Inoue explore complex negotiations Okinawa has had with Washington and Tokyo beyond resistance and protest a process that involves developing a local communal capacity to embrace diverse and often contradictory attitudes toward the US military Inoue s grounded investigation underscores the possibility of small yet significant incremental social changes from below a possibility that ultimately points toward the World Republic an international politics built upon peace democracy and shared affluence against the sovereignty of global capitalism
