## **Ethical Judgment In Teaching:**

Ethical Judgment in Teaching Karl D. Hostetler,1996-11      **Ethical Judgment in Teaching** Karl D. Hostetler,1997 This book is about helping teachers think carefully and knowledgeably about ethics in teaching and to encourage them to talk to other people about it Each chapter in the body of this text is organized around a pair of basic ethical concepts freedom and discipline self and others communities near and far excellence and equality unity and diversity and faith and truth Each of these chapters begins with a realistic case which provide a vehicle for readers to see how the concepts come up in concrete situations Following each chapter case are two essays by two different contributing writers who put themselves in the position of deciding how to approach the case The idea is for them to model ethical judgment and to give readers a glimpse into how thoughtful people may agree or disagree on the same case The writers continue to respond to each other s reactions throughout the chapter in order to show how constructive criticism of other people s viewpoints and the ability to provide feedback can help people learn from each other in a civil manner This book presents a wider range of theoretical perspectives than its competitors while offering actual exchanges of viewpoints between informed educators The discussion is more philosophically sophisticated and encourages readers to think critically and to incorporate theory into actual judgment It aims to show the importance as well as the limitations of making judgment a cooperative activity among people For professionals working in the field of education      Teaching and Learning the Difficult Past Magdalena H. Gross,Luke Terra,2018-12-07 Building upon the theoretical foundations for the teaching and learning of difficult histories in social studies classrooms this edited collection offers diverse perspectives on school practices curriculum development and experiences of teaching about traumatic events Considering the relationship between memory history and education this volume advances the discussion of classroom based practices for teaching and learning difficult histories and investigates the role that history education plays in creating and sustaining national and collective identities      **Teaching History, Learning Citizenship** Jeffery D. Crook, Derek Truscott, 2006-01-16 The practice of teaching is regulated both by law and by professional codes of ethics and conduct Laws and codes cannot cover every possible ethically challenging situation that teachers will face however and teachers will always have to rely on their own ethical judgment of what the right course of action should be Such ethical judgment is not simply a matter of personal preference it must be based on sound ethical principles and reasoning For this reason an exploration of our own values is an integral part of ethical training *Ethics and Law for Teachers* will help the reader explore values relevant to professional behaviour and provides both theoretical and practical knowledge to the teacher in training *Proceedings of the Annual Meeting - National Education Association of the United States* National Education Association of the United States, 1908 **Teaching Ethics** Daniel E.
