Four Steps To True Wealth:

Four Steps to True Wealth Christopher T. Wood, 2003-05-01 BOOK REVIEW Alec Franklor Spirit of Change March April 2004 True wealth is achieved when all aspects of life material emotional and spiritual coalesce harmoniously it has little to do with what is possessed In his book Four Steps to True Wealth Christopher T Wood assists us in making financial planning a part of the actualization of one s life purpose In taking us through the steps of recognizing what is important in our own lives Wood shows us that how we feel about money may be creating road blocks to the actualization of personal and financial goals Wood a Financial Life Advisor explains the classic methods of wealth accumulation and gives advice on how to weight your portfolio based on your unique goals While enough information is given to begin investing on your own advice is also given on finding competent professional assistance What makes Wood s book unique in the world of financial planning is his adherence to the social contract the ability to receive material wealth in exchange for an active role in giving back to the positive evolution of society He advocates that there is nothing in the nature of most goods and services that makes them bad In this way he postulates that money is not the root of all evil but the love of money that causes problems Wood places his financial advice in the context of how American society has arrived at the current definition of wealth and the history behind our current financial market In addition he critiques corporate and investor greed and notes class inequities created by society s inappropriate accumulation of wealth Although a holistic perspective to financial decision making Wood refrains from talking about socially responsible investing

A Way Up Patrick M. Young, 2022-01-21 The first thought after any arrest is usually how long will it take to get out Whether in jail or prison your sole focus is getting out Recent statistics shows that three out of every four persons incarcerated always end up returning behind bars within the first three years of release A large percentage of these people are from low income communities where access to financial capital education and job opportunities are limited and family ends up getting stuck in a deep cycle of poverty that they found extremely difficult to break out from Arrested for crimes often sponsored by poverty and the dire economic conditions that defined them they are taken through a criminal justice system that is far more interested in keeping them in the poverty incarceration cycle than rehabilitating them and giving them a better chance at life With no income and criminal history after release they are unable to pay for food housing and health needs And what happens eventually They slip back into a life of crime and the cycle continues It is high time we nullified this poverty incarceration two feeder system How By dealing with the root which is poverty So how do you break the cycle of poverty You may want to get out of jail or prison but are you ready to get out of poverty How The answers are found here in learning how to experience your own economic development post incarceration Do you feel stuck Are you tired of going in and out of jail Or are you an ex offender who have found it difficult to progress because of barriers associated with your criminal history This book is the clear road map to creating generational wealth and living the kind of life you deserve This book is the guide to finding a way up not just a way out
