Building Ecology Peter Graham, 2009-02-12 Buildings consume 40% of our planet's materials and 30% of its energy Their construction uses up to three million tonnes of raw materials a year and generates 20% of the solid waste stream If we want to survive our urban future there is no option but to build in ways which improve the health of ecosystems Understanding the concept of ecological sustainability and translating it into practice as sustainable development is a key challenge for today's built environment professionals The skill and vision of those who shape our cities and homes is vital to achieving sustainable solutions to the many environmental economic and social problems we face on a local national and global scale Peter Graham offers here a holistic view of ecologically sustainable building by drawing on established areas of knowledge demonstrating their relevance to the environmentally conscious building professional and putting the process product and impact of building into context Case studies illustrate how sustainable principles have been applied successfully and discussion topics

are offered to stimulate thought Building Ecology will help planners surveyors designers and builders to incorporate sustainability into their everyday practice by showing which styles of building are ecologically sustainable providing fundamental knowledge for making decisions using the principles of ecologically sustainable building explaining a complex subject in a clear balanced way Building Ecology sets out the current scientific view of how nature works and how buildings link with and affect nature It provides fundamental knowledge for building in harmony with nature and keeping Earth s life supporting ecosystems healthy

The Forest Wars Judith Ajani,2007 After four decades the wars over Australia s forests continue to collect scalps and to make strange bedfellows of politicians The forest debate played a role in ending the political careers of Paul Keating and Mark Latham and led to the extraordinary instance of John Howard embracing the leaders of the CFMEU s Forestry Division in the lead up to the 2004 election And yet as forest expert Judith Ajani contends Australia is in the enviable position of being able to meet nearly all its wood needs from economically superior plantations We have the potential to benefit fully from the value of native forests as carbon sinks water catchments and wildlife habitat There is no irreconcilable conflict between development and environment So why do the major parties not have coherent forest policies Ajani reveals that standing in the way are silenced plantation interests failing bureaucracies destructive union behaviour and government created super profits from native forest woodchipping Forests will again play a major role in the 2007 federal election campaign The Forest Wars explains why there is an urgent need to end the conflict and shows us the way forward

The Importance of Wood and Timber in Sustainable Buildings Ali Sayigh,2021-09-13 This book emphasizes the important message that architects and structural engineers must strive to ensure that the buildings they design and construct should not be major contributors to climate change Rather they should be exploring the use of green materials and building methods such as timber wood and associated materials in order to safeguard the environment These sustainable materials are not only environmentally friendly but they have the added benefit of being easy to manufacture cost effective often locally available and easily replenished Moreover it has been demonstrated that wood and timber are viable materials in the construction of a wide variety of building types including medium and high rise buildings The Importance of Wood and

Timber in Sustainable Buildings brings together a distinguished group of contributors from different cultures and building traditions to address why now is the time to rethink our construction methods and explore replacing many of the carbon intensive materials that are currently being used with wood and timber
