Forest Folk (Classic Reprint) James Prior, 2018-01-16 Excerpt from Forest Folk But presently the latter appeared to remark and resent the presence of an on-looker A couple of them made towards him armed with pistols towns men they looked like of the artisan sort in ragged cloth coats and greasy breeches Evidently the horse man thought it more prudent not to await their coming for he turned about and galloped off But as soon as he was fairly out of pistol shot he again reined in and looked back The two men stood watching him and with threatening wafts of the hand seemed to be bidding him continue his retreat He did so and soon a dip in the road hid them completely from his view About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state-of-the-art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish

Fairy Tales in Popular Culture Martin Hallett,Barbara Karasek,2014-08-05 It wasn't so long ago that the fairy tale was comfortably settled as an established and respectable part of children's literature Since the fairy tale has always been a mirror of its times however we should not be surprised that in the latter part of the twentieth century it turned dark and ambiguous its categorical distinction between good and evil was increasingly at odds with the times Yet whatever changes the fairy tale may have undergone its cultural popularity has never been greater Fairy Tales in Popular Culture sets out to show how the tale has been adapted to meet the needs of the contemporary world how writers film makers artists and other communicators have found in its universality an ideal vehicle for speaking to the here and now and how social media have created a participatory culture that has re-invented the fairy tale A selection of recent retellings show how the tale is being recalibrated for the contemporary world first through the word and then through the image In addition to the introductions that precede each section the anthology provides a selection of critical pieces that offer lively insight into various aspects of the fairy tale as popular culture
