

Alphabetic Writing (1)

- If we have a set of symbols being used to represent syllables beginning with, for example, a *b* sound or a *m* sound, then we are actually very close to a situation in which the symbols can be used to represent single sound types in a language. This is, in effect, the basis of *alphabetic writing*.
- An alphabet is essentially a set of written symbols which each represent a single type of sound.
