Newly updated with the latest research, A Good Start in Life explains how a child's personality and social development unfold in the first six years of life. With a specific focus on the brain, this book provides warm, friendly advice to help parents guide their child's emerging individuality year by year. Included are helpful brain maps and milestone charts for a child's developing behaviors. Each chapter ends with a section called "To Think About..." answering questions parents ask at Dr. Herschkowitz's talks, including subjects such as goodnight rituals, TV-watching, testing limits, coping with conflict, helping in the family, and developing empathy.
