Edwin Morgan Collected Translations:

Collected Translations Edwin Morgan, 1996 There is something profligate in the range and quality of Morgan's work as a translator. He does the labour of ten writers and with blithe sprezzatura partly at least because his own work nourishes itself from the poetry of other lands and ages. It is part of the necessary mechanism that Morgan as a Scot employs to define his place as a European to escape the tonal and cultural limitations which England can imply. Collected Translations includes six decades of work. Readers will find here Morgan's celebrated Mayakovsky done into Scots, his Voznesensky, Pasternak and Vinokurov. There are the Italians and the French Leopardi, Quasimodo, Montale, Guillevic, Provert and Michaux and there is Heine and Lorca, Cernuda and Brecht and Enzensberger and Braga. And much much more. *Lines of Resistance* Adrian Grafe, Jessica Stephens, 2014-01-10 Resistance is a key concept for understanding the twentieth and early twenty-first centuries and for approaching the poetry of the period. This collection of 15 critical essays explores how poetry and resistance interact set against a philosophical, historical and cultural background. In the light of the upheavals of the age and the changing perception of the nature of language, resistance is seen to lie at the core of poetic preoccupations, moving poetic language forward. From this perspective, the resistance of poetry is connected with the human call to solidarity, resilience and ultimately meaning. The volume covers poetry from Hardy, Yeats and Auden among others to contemporary writers like Hugo Williams and Linton Kwesi Johnson.

Beowulf Edwin Morgan, 2012-07-27 Edwin Morgan's *Beowulf* has been a popular standard translation for half a century. His version is a vigorous spoken English and conveys the heroism, violence and pathos of the first English epic. The poem marks a key moment in Edwin Morgan's development as he recalls. This translation of *Beowulf* was made in the last years of the 1940s and was published in hardback by the Hand and Flower Press in 1952. In the present Carcanet edition, poem and introduction have been kept the same despite temptations to tinker here and there. The translation, which was begun shortly after I came out of the army at the end of the Second World War, was in a sense my unwritten war poem and I would not want to alter the expression I gave to its themes of conflict and danger, voyaging and displacement, loyalty and loss. *Inter arma musae tacent*. In the time of conflict, the Muses are silent but they are not sleeping.

Edwin Morgan is a major translator. In 2011 he was awarded the Weidenfeld Translation Prize for his version of Racine's *Phaedra*. His Carcanet titles include his *Collected Translations* 1996.

From Trocchi to Trainspotting - Scottish Critical Theory Since 1960 Michael Gardiner, 2006-07-04 This book charts the course of Scottish Critical Theory since the 1960s. It provocatively argues that French critical theoretical ideas have developed in tandem with Scottish writing during this period. Its themes can be read as a breakdown in Scottish Enlightenment thinking after empire, precisely the process which permitted the rise of theory. The book places within a wider theoretical context writers such as Muriel Spark, Edwin Morgan, Ian Hamilton Finlay, James Kelman, Alexander Trocchi, Janice Galloway, Alan Warner and Irvine Welsh, as well as more recent work by Alan Riach and Pat Kane, who can be seen to take the post-Enlightenment narrative forward. In doing so, it draws on

the work of the Scottish thinkers John Macmurray and R D Laing as well as the continental philosophers Gilles Deleuze and Paul Virilio

Translation Daniel Weissbort, Ástráður Eysteinnsson, 2006 Translation Theory and Practice A Historical Reader responds to the need for a collection of primary texts on translation in the English tradition from the earliest times to the present day Based on an exhaustive survey of the wealth of available materials the Reader demonstrates throughout the link between theory and practice with excerpts not only of significant theoretical writings but of actual translations as well as excerpts on translation from letters interviews autobiographies and fiction The collection is intended as a teaching tool but also as an encyclopaedia for the use of translators and writers on translation It presents the full panoply of approaches to translation without necessarily judging between them but showing clearly what is to be gained or lost in each case Translations of key texts such as the Bible and the Homeric epic are traced through the ages with the same passages excerpted making it possible for readers to construct their own map of the evolution of translation and to evaluate in their historical contexts the variety of approaches The passages in question are also accompanied by ad verbum versions to facilitate comparison The bibliographies are likewise comprehensive The editors have drawn on the expertise of leading scholars in the field including the late James S Holmes Louis Kelly Jonathan Wilcox Jane Stevenson David Hopkins and many others In addition significant non English texts such as Martin Luther s Circular Letter on Translation which may be said to have inaugurated the Reformation are included helping to set the English tradition in a wider context Related items such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in collages marking particularly important moments or developments in the history of translation This comprehensive reader provides an invaluable and illuminating resource for scholars and students of translation and English literature as well as poets cultural historians and professional translators
