Johnston,2023-11-15 During the 1920s and 1930s Edward Steichen was the most successful photographer in the advertising  
industry Although much has been said about Steichen s fine art photography his commercial work which appeared regularly  
in Vanity Fair Vogue Ladies Home Journal and almost every other popular magazine published in the United States has not  
received the attention it deserves At a time when photography was just beginning to replace drawings as the favored medium  
for advertising Steichen helped transform the producers of such products as Welch s grape juice and Jergens lotion from  
small family businesses to national household names In this book Patricia Johnston uses Steichen s work as a case study of  
the history of advertising and the American economy between the wars She traces the development of Steichen s work from  
an early naturalistic style through increasingly calculated attempts to construct consumer fantasies By the 1930s alluring  
images of romance and class developed in collaboration with agency staff and packaged in overtly manipulative and  
persuasive photographs became Steichen s stock in trade He was most frequently chosen by agencies for products targeted  
toward women his images depicted vivacious singles earnest new mothers and other stereotypically female life stages that  
reveal a great deal about the industry s perceptions of and pitches to this particular audience Johnston presents an intriguing  
inside view of advertising agencies drawing on an array of internal documents to reconstruct the team process that involved  
clients art directors account executives copywriters and photographers Her book is a telling chronicle of the role of mass  
media imagery in reflecting shaping and challenging social values in American culture During the 1920s and 1930s Edward  
Steichen was the most successful photographer in the advertising industry Although much has been said about Steichen s
