Leading Practice in Early Years Settings Mary E Whalley, Shirley Allen, 2011-06-13 To achieve Early Years Professional Status candidates must demonstrate that they have effectively led the professional practice of their colleagues across the 0-5 age range. The second edition of this popular text helps Early Years students and experienced practitioners develop the knowledge, skills, and confidence to do just that. It explains the nature of leadership and the EYP's role in promoting good practice and appropriate values and principles. This new edition has been fully revised and updated and includes new chapters on leading practice in a multi-professional context and the leader of practice as an agent of change.

Effective Early Learning Christine Pascal, 2001. This guide draws on the experience of practitioners involved in the first developmental stage of the Effective Learning Research Project. The book includes case studies ideal for students, teachers, and trainers.

Drawing and Painting John Matthews, 2003-04-22. The author questions inherited wisdom about children's development in visual representation and explains different models of development in visual expression.

Child Development and Learning 2-5 Years Cath Arnold, 1999-01-01. This book grew out of a three-year study of one child documenting her social, emotional, and cognitive development. It provides a valuable insight for all students and teachers of child development at the individual level. The observations and assessments are presented here as a model for students to use in their own observations aimed at supporting and extending children's learning. The book sets out theories and traditions in early childhood development and care, as well as ways of analyzing observations. This is an essential book for students and practitioners involved in research and observation in early years settings.
