Children Born of War Sabine Lee,Heide Glaesmer,Barbara Stelzl-Marx,2021-07-28 This volume presents research from an international interdisciplinary and intersectoral research project in which 15 doctoral researchers explored a range of issues related to the life course experiences of children born of war in 20th century conflicts Children Born of War CBOW children fathered by foreign soldiers and born to local mothers during and after armed conflicts have long been neglected in the research of the social consequences of war Based on research projects completed under the auspices of the Horizon2020 funded international and interdisciplinary research and training network CHIBOW [www.chibow.org](http://www.chibow.org) this book examines the psychological and social impact of war on these children It focusses on three separate but interrelated themes firstly it explores methodological and ethical issues related to research

with war affected populations in general and children born of war in particular Secondly it presents innovative historical research focussing specifically on geopolitical areas that have hitherto been unexplored and thirdly it addresses from a psychological and psychiatric perspective the challenges faced by children born of war in post conflict communities including stigmatisation discrimination within the significant context of identity formation when faced with contested memories of volatile post war experiences The book offers an insight into the social consequences of war for those children associated with the enemy by virtue of their direct biological link

**Social Studies for the Twenty-First Century** Jack Zevin, 2013-08-21 Social Studies for the Twenty First Century Third Edition weaves theory curriculum methods and assessment into a comprehensive model to guide middle and secondary teachers in setting objectives planning lessons units and courses choosing classroom strategies and constructing tests for some of the field s most popular and enduring programs It offers practical interesting exciting ways to teach social studies and a multitude of instructional and professional resources for teachers The text includes separate chapters on teaching each of the major areas of the social studies curriculum Its reflective and integrative framework emphasizes building imagination insight and critical thinking into everyday classrooms encourages problem solving attitudes and behavior and provokes analysis reflection and debate Throughout the text all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic factual reflective analytical and affective judgmental components These three components are seen as supporting one another building the groundwork for taking stands on issues past and present At the center is the author s belief that the heart and soul of social studies instruction perhaps all teaching lies in stimulating the production of ideas looking at knowledge from others viewpoints and formulating for oneself a set of goals values and beliefs that can be explained and justified in open discussion New in the Third Edition Summaries of recent research particularly in history education that have been published since the last edition Increased attention to social studies standards as well as those for civics economics and history An enriched view of teaching history and social studies with a wide array of sources ranging from material objects through primary sources on to art music and literature Tightening of the text to make it shorter and more pointed including a few provocative new ideas More and better organized ideas for classroom group and individual activities and cooperative learning Expanded appendices on instructional resources include the rapidly growing use of websites New visuals that are better integrated into the text and which teachers can use in their classrooms as lessons in visual literacy and Continued efforts to inject a bit of humor and self criticism into a field of education most students view as a sizeable trunk of dead and deadly facts Social Studies for the Twenty First Century Third Edition is a primary text for secondary and middle social studies methods courses

**Design Professionals and the Built Environment** Paul Knox, Peter Ozolins, 2000 Brings together many of the world s leading names from the UK USA Europe and Asia this is the first book to fully reflect the move towards a more synthetic approach in professional and student courses
