

Ethical Volition

Albert Gani

First Edition

Albert Gani, for the past 28 years, has guided people in their quest for purpose and meaning to their lives, motivating them to pursue happiness through ethics. His work has taken him from coast to coast in the United States, as well as Europe and Mexico.

This Book is for You If You Want to Cleanse Your Livelihood

Give and you shall receive; seek and you shall find; trust and you will feel secure. These are not only spiritual laws. They are ethical, as well. And by the way, they are also financial.

No success, no abundance exists without them. All abundance is based on trust. This can be demonstrated by observing the trust that existed at the times of history when there was abundance.

This can also be observed where trust exists. The hubs of the financial world depend, for their transactions, on word of mouth, i.e., on trust. Lack of ethics breeds lack of trust and breeds poverty. Poverty is created by mistrust. Trust is what creates wealth and maintains it, and wealth and abundance are natural states. (Page 196.)

Ethical Volition Albert Gani,2000-10 *Ethics of Maimonides* Hermann Cohen,2003-01-12 Hermann Cohen s essay on Maimonides ethics is one of the most fundamental texts of twentieth century Jewish philosophy correlating Platonic prophetic Maimonidean and Kantian traditions Almut Sh Bruckstein provides the first English translation and her own extensive commentary on this landmark 1908 work which inspired readings of medieval and rabbinic sources by Leo Strauss Franz Rosenzweig and Emmanuel Levinas Cohen rejects the notion that we should try to understand texts of the past solely in the context of their own historical era Subverting the historical order he interprets the ethical meanings of texts in the light of a future yet to be realized He commits the entire Jewish tradition to a universal socialism prophetically inspired by ideals of humanity peace and universal justice Through her own probing commentary on Cohen s text like the margin notes of a medieval treatise Bruckstein performs the hermeneutical act that lies at the core of Cohen s argument she reads Jewish sources from a perspective that recognizes the interpretive act of commentary itself **The Principles of New Ethics IV** Wang Haiming,2020-12-29 From Descartes to Spinoza Western philosophers have attempted to propose an axiomatic systemization of ethics However without consensus on the contents and objects of ethics the system remains incomplete This four volume set presents a model that highlights a Chinese philosopher s insights into ethics after a 22 year study Three essential components of ethics are examined meta ethics normative ethics and virtue ethics In this volume the author analyzes the relationship between people s sense of reputation the political and economic status of a nation and the observation of virtue ethics and he argues that reputation can encourage people to conform to virtue ethics In addition a nation s political and economic status is closely connected to people s virtue ethics That is people will have higher virtue ethics when constitutional democracy a market economy without government control freedom of speech and the moral system of liberalism and egalitarianism are established in a nation This title is an essential read for students and scholars of ethics and philosophy in general **Ethica** Simon Somerville Laurie,1891 **Fichte's System of Ethics** Stefano Bacin,Owen Ware,2021-05-20 The System of Ethics was published at the height of Fichte s academic career and marks the culmination of his philosophical development in Jena Much more than a treatise on ethics narrowly construed the System of Ethics presents a unified synthesis of Fichte s core philosophical ideas including the principle I hood self activity and self consciousness and also contains his most detailed treatment of action and agency This volume brings together an international group of leading scholars on Fichte and is the first of its kind in English to offer critical and interpretive perspectives on this work covering topics such as normativity belief justification desire duty and the ethical life It will be an essential guide for scholars wanting to deepen their understanding of Fichte s ethical thought as well as for those interested in the history of ethics more broadly Kant's Ethics John Silber,2012-05-29 Kant s Ethics The Good Freedom and the Will is a systematic examination of Kant s ethics that recognizes the central importance of the good in relation to duty as forming

a unified whole in accordance with Kant's intent The Enlightenment by undermining the religious foundations of morality prompted Kant to offer a new foundation for ethics based not on religion but on reason The first chapter provides the context of Kant's ethics and explains the criteria by which to select views that are authoritative among Kant's variety of statements With these criteria for interpretation in hand the book attempts a systematic account of Kant's ethics as he developed it over a period of more than 40 years Kant's Ethics includes an analysis of the tripartite nature of the will in its dynamic unity and the relation of the will to the good An appendix Kant at Auschwitz briefly considers a serious problem for Kant's political philosophy that follows from his insistence on obeying civil authority The ethical library Sophie Bryant,1894
