Graffiti Mirror:

Metagraffiti Chandra Morrison Ariyo,2024-12-13 Focusing on graffiti scenes from S o Paulo and Santiago in Chile this innovative visual ethnography examines diverse forms of self reference and metareference that appear in Latin American graffiti art Chandra Morrison Ariyo works across multiple scales of contemporary graffiti production from tags to massive murals to show how painting the city enables individuals to reimagine their own position within the material and social structures around them Metagraffiti reveals how practitioners such as Tinho OSGEMEOS Grin and Bisy use metagraffiti features to influence public perceptions about this art form and its effect on the urban environment Ultimately Metagraffiti proposes a novel conceptual framework that highlights graffiti s ability to forge alternative forms of movement sociality and value within Latin American cityscapes These urban images invite us to imagine what the city could be when seen as a site for action and imagination

Walled Life Jenny Stümer,2022-02-24 Going beyond a discussion of political architecture Walled Life investigates

the mediation of material and imagined border walls through cinema and art practices The book reads political walls as more than physical obstruction instead treating the wall as an affective screen capable of negotiating the messy feelings personal conflicts and haunting legacies that make up walled life as an evolving signpost in the current global border regime By exploring the wall as an emotional and visceral presence the book shows that if we read political walls as forms of affective media they become legible not simply as shields impositions or monuments but as projective surfaces that negotiate the interaction of psychological barriers with political structures through cinema art and of course the wall itself Drawing on the Berlin Wall the West Bank Separation barrier and the U S Mexico border Walled Life discovers each wall through the films and artworks it has inspired examining a wide array of graffiti murals art installations movies photography and paintings Remediating the silent barriers we erect between and often within ourselves these interventions tell us about the political fantasies and traumatic histories that undergird the politics of walls as they rework the affective settings of political boundaries
