- ✧ Potential implication of feminism strands for political analysis.
- ✧ Traditionally political scientists were almost all men and numbers of women still relatively low in 1970.
- ✧ Different stages:

First stage; was mounting a critique of male political science for its virtual exclusion of women as political actor.

Second stage; sometimes dismissively referred to as 'adding women in' , and entailed a much more systematic investigation into the extent of women's underrepresentation and its institutional and non-institutional causes.

In third stage more fundamental questions were raised about their discipline, about limitations of the characteristic methodologies employed in political science, about the way that politics is conceptualized; and about the 'gendered' character of political institutions and processes.
