

The Boeing 747-400 is a wide-body, four-engine jet aircraft. It is the largest passenger aircraft in the world, with a maximum capacity of 416 passengers in a single-class configuration. The aircraft is designed for long-haul flights and is known for its reliability and efficiency.

The aircraft features a high-wing configuration, which allows for a larger cargo hold and easier access to the main cabin. It is powered by four turbofan engines, which provide the thrust needed for takeoff and cruise. The aircraft's wings are equipped with wing fences to improve airflow and reduce drag.

The Boeing 747-400 is a highly versatile aircraft, capable of operating on a wide range of runways and airports. It is used by airlines around the world for both passenger and cargo transport. The aircraft's design and performance have made it a key player in the global aviation industry.

The aircraft's interior is designed for passenger comfort and safety. It features a spacious cabin with wide aisles and comfortable seating. The aircraft is also equipped with advanced safety features, including multiple exits and a robust structural design.

The Boeing 747-400 is a testament to human ingenuity and engineering. Its design and performance have set the standard for large commercial aircraft. It continues to serve the world's airlines and passengers, providing a reliable and efficient mode of air travel.
