God cannot force your will upon the other The entire activity of Life is the project of working things out between all the individuals each of whom is a God All the problems we are having in Life are formed as a result of trying to reach understanding between Gods We are related only by choice This choice is called Love We are related only through communication the transfer of thought from one God to another Enlightenment for Everyone Paul Ferrini,2000 Enlightenment is not contingent on finding the right teacher or having some kind of peak spiritual experience There is nothing that you need to get find or acquire to be enlightened You don't need a priest or rabbi to intercede with God for you Enlightenment is the realization of the light that is within you It is the conscious recognition and acceptance of that light

Awake Joy Katie Davis,2008-02 Encouraged by Eckhart Tolle Awake Joy is a unique and comprehensive guide to awakening and enlightenment It points to the radiant joy that is beyond the thinking mind the separate sense of self its idea of separation and identification with form Katie Davis takes the mind identified reader through their personal growth strategies to awakening She then deepens to Self discovery or what we might call the realization of the Heart The book then shifts to conscious living by embracing humanity's diversity and the earth as none other than the Essence The journey requires presence not practices although the book offers experiments and meditations to free the ego This book is designed to be your companion throughout your life's journey to true and lasting fulfillment It will be a trusted resource again and again This A Z handbook stands free of concepts and points pragmatically for those who are ready to surrender suffering for themselves their families the schools and the world The Method Kyle Hoobin,2017-04-15 FOR THOSE IN THE FINAL STAGES OF AWAKENING Things become much more simplified at the end of the spiritual search so much so that it is possible to identify key stages that every seeker encounters immediately preceding awakening enlightenment So in one sense these 5 steps have not been invented by me I have simply segmented the final stages that a seeker of truth encounters when they have reached the end of the spiritual search for greater clarity and guidance If you've been on the spiritual path long enough you've probably reached the conclusion that no technique or practice can wake you up make you free or make you enlightened You will have likely realized that all effort to attain a different state of consciousness can only ever come from a delusional state of consciousness or false self So what does one do then when one realizes such a thing If there's nothing that you can do to set yourself free then how do you become free Enter the 5 final steps of self inquiry The Method is based upon the understanding that spiritual awakening is not an attainment but a dissolution These 5 steps are intended to permanently dissolve the deeply ingrained belief that you can make yourself free If these steps are followed through with utter totality awakening will be what's left as a byproduct While no methods work when it comes to awakening all methods fail so in a way any method can be helpful to exhaust the seeker in you This method has been formed specifically for those who have tried every other method under the sun and are ready for defeat This method is intended to be the last method This is the end game my friend are you ready Feedback Those who are ripe and are exhausted with spiritual seeking and the endless

questions of the mind will find a great resonance with the words herein and maybe just maybe a true catalyst for the final step Prof Kriben Pillay Author of The Poisons greed ill will delusion Kyle Hoobin is an author and self inquiry teacher In April of 2002 Kyle experienced a profound shift in consciousness following a long battle with depression He now offers support for those seeking authentic freedom in their lives Kyle s teachings focus on practical and accessible methods of self inquiry with a focus on finding freedom through direct personal experience He has distanced himself from conventional lineage based teachings in an effort to establish a more authentic spiritual standard for spiritual seekers To learn more visit kylehoobin.com and take part in Kyle s bi weekly live streams and his self inquiry video series Awaken Sundar Kadayam,2020-01-28 Experience Enlightenment Life is a constant struggle between happiness and suffering Nothing gained in the world remains forever whether that be happiness peace love possessions or fame Fear worries stress anger resentment greed jealousy lack and grief are never far Are you doomed to this life of limitation Are you destined to struggle with the ups and downs of life The Masters say that the reason for your suffering in life is because you ve never examined who you are the one who experiences life in this way is not the real you The Masters point out that your real nature is unbounded and unchanging Its experience feels like peace love and happiness without their opposites Throughout human history many people have had this experiential recognition of their real nature We ve labeled this as Enlightenment Awakening or Self Realization This heart offering helps you with the experiential exploration of who you really are and what the unchanging Reality is Dear One it is time to awaken to your real nature **Awakening to Infinite Presence** Robert Wolfe,2015-06-01 The deeply felt recognition that the Absolute is all that is and consequently that must include you is the life changing substance of enlightenment All things are That you as well as all other human beings there is only That in the sense of ultimate permanent reality How then does one live one s life when the present awareness is I am That and all else is That when the perception of being a separate individual has dissolved and the ego Latin for I is no longer at the center of one s perspective Real i zation the enlightenment the aspirant has sought means to make real How do we make the real the essence of timeless reality the central expression of the Absolute perspective we have now discovered to be inevitably our own To make real in one s life and activities the awareness that all that is is That is unavoidably a life altering engagement Are you prepared to live with this discovery today So the real question the final question is not How am I to come to self realization but Is enlightenment what I really want
