Congress. Atomic Energy Joint Committee,1973 **Future Structure of the Uranium Enrichment Industry** United

States. Congress. Joint Committee on Atomic Energy,1973 **ADHD and Anxiety: Causality Sequences Through a**

**Biopsychosocial Model** Hongbao Cao, Shaolei Teng,Sha Liu,2025-08-18 ADHD Attention Deficit Hyperactivity Disorder and

anxiety disorders are two of the most common psychiatric conditions often co existing in the same individuals The

relationship between these disorders is complex and multifactorial in nature The biopsychosocial model postulates that

biological psychological and social factors all play a significant role in human functioning in the context of disease or illness

which includes these disorders Evidence suggests that ADHD can predispose individuals to anxiety and vice versa However

the causality sequences as explored in the literature remains limited It is possible that ADHD symptomology causes anxiety

or the genetics behind ADHD causes anxiety symptoms Current research has adopted a more complex nuanced

understanding of both disorders acknowledging the unique interactions of biological psychological and social factors and

large datasets e g Dunedin datasets may help with developing a stronger causality sequence It s also noteworthy that severe

anxiety can look like ADHD but the treatment is totally different as ADHD meds Stimulants can make anxiety worse *Time*
