Subcommittee on International Economic Policy and Trade, 2001 **The Environment, Government Policies, and International Trade**, 1993 *OECD Insights International Trade Free, Fair and Open?* Love Patrick, Lattimore Ralph, 2009-05-19 Argues that prosperity has rarely if ever been achieved or sustained without trade Trade alone however is not enough policies targeting employment education health and other issues are also needed to promote well being and tackle the challenges of a globalised economy **International Trade, Investment, and**

the Sustainable Development Goals Cosimo Beverelli, Jürgen Kurtz, Damian Raess, 2020-10-01 In September 2015 world leaders adopted the 2030 Agenda for Sustainable Development The Sustainable Development Goals SDGs represent a distinctive approach to development that moves away from a narrow perspective on economic development to an integrative agenda that simultaneously pursues ecological social and economic goals Trade and foreign investment are important economic vectors through which many of these goals can be achieved Much depends however on whether and how SDGs are incorporated in international trade and investment agreements and in private or public sector initiatives Policymakers are also confronted with the interdependence of the SDGs which raises difficult trade offs between various Goals The contributions in this book explore the penetration and trade offs of the SDGs drawing on a multi disciplinary approach incorporating insights from economists lawyers and political scientists The book offers a valuable guide for scholars and policy makers in identifying and evaluating the complex challenges related to sustainable development **Climate Change**

and International Trade Rafael Leal-Arcas, 2013-01-01 Rafael Leal Arcas expertly examines the interface of climate change mitigation and international trade law with a view to addressing the question How can we make best use of the international trading system experience to aim at a global climate change agreement The insightful book contributes to developing the architecture for a post 2012 global climate agreement and in doing so seeks and proposes new approaches to climate change mitigation by linking it to the international trade system The author suggests the adoption of a bottom up approach to climate change negotiations by using the evolution of multilateral trade agreements as a model for reaching a global climate

treaty He discusses the innovative approach of inserting climate goals within regional trade agreements given their proliferation especially bilateral in the international trading system He explains the trade implications of climate change mitigation policies by analyzing a couple of areas where the international regimes for trade and climate change mitigation may potentially clash Climate Change and International Trade will strongly appeal to undergraduate and graduate students of international and European trade law international and European environmental law as well as social science academics NGOs think tanks practitioners researchers and international organizations will also find plenty of valuable information in this timely resource
