Environmental Issues In The Mediterranean

Mike Jess

Environmental Issues In The Mediterranean:

Environmental Issues in the Mediterranean John B. Thornes, John Wainwright, 2004-03-01 The Mediterranean has been subject to changing human settlement and land use patterns for millennia and has a history of human exploitation in an inherently unstable landscape Environmental Issues in the Mediterranean reviews both physical and social aspects of this region in relation to its environment Ideal for students who are studying a range of environmental issues but want to see them linked within one regional context The book begins with an introduction to the Mediterranean region its history physical and human geography and its environmental problems It then goes on to examine The Dynamic Environment climate variables and fluctuations vegetation the hydrological cycle of the basin and its watershed processes of erosion fire and the Mediterranean Sea The Human Impact on the Environment prehistoric and historic land use traditional agriculture rural and urban settlement and use of mineral resources The Mediterranean Environment Under Increasing Pressure the present human landscape changes in agriculture in the 20th century the impact of depopulation pollution water resources desertification and potential climatic change It then concludes with a discussion of the region s on going environmental issues of water resources land degradation agricultural intensification and tourism and considers how these can be approached using management techniques and national and regional policies

Environmental Challenges in the Mediterranean 2000-2050 Antonio Marquina, 2012-12-06 This book collects most of the contributions prepared for the NATO Advanced Research Workshop ARW on Environmental Challenges in the Mediterranean 2000 2050 The ARW took place in Madrid from 2 to 5 of October 2002 Scholars and researchers from North and South of the Mediterranean and other countries from NATO gathered in Madrid for discussing several important factors that could affect Mediterranean security in the next 50 years In this regard the first chapter presents the different debates regarding environmental security that took place in the last decade This chapter is an introductory chapter and takes into account the possible audience in the Southern Mediterranean and the wishes of some contributors For this reason the chapter deals in extenso with the question of human security and the different approaches The ARW dealt with issues that may affect the supply of fundamental goods for human living To this end the complex question of climate change its impact in the Mediterranean the predicted increase in temperatures and predictions about rainfall are analysed As part of this approach a chapter about solar variability and climate change is also added

Environmental Condition of the Mediterranean Sea F.B. de Walle, M. Nikolopoulou-Tamvakli, W.J. Heinen, 1993-08-31 The Environmental Program for the Mediterranean EPM assesses the nature and the extent of the environmental problems in the Mediterranean Basin It leads to recommendations for short to medium term actions Policies institutional measures technical assistance and investment project proposals are necessary to ameliorate such problems The EPM emphasizes the economic and financial implications of environmental protection It suggests ways in which the countries of the region can achieve the high priority environmental investments that are

recommended The case is made for greater efforts from the international aid community to assist the Mediterranean countries in this endeavor The EPM is a common initiative launched in 1988 by the European Investment Bank and by the World Bank The World Bank has economic development as its main objective The Bank has lent for development projects since 1946 primarily in the developing countries of the Third World The EIB's main task under Article 130 of the Treaty of Rome is to contribute to the balanced development of the European Community another of its priorities is the protection of the environment The Netherlands Organization for Applied Scientific Research TNO derives its legal status from an Act of Parliament of 1930 on applied scientific research in the Netherlands It is a fully independent R D organization and currently has a staff of about 5 100 and a turnover of more than 370 million U S dollars a year Studies by TNO are carried out in a number of institutes and laboratories located throughout the Netherlands TNO's primary task is to support technological innovation in trade and industry government agencies and community groups TNO also assists clients and sponsors in solving problems It conducts consultancy and transfers knowledge and know how to individual companies and sector groups Know how is obtained from TNO's own research or is generated through collaboration with universities and third parties The present study is sponsored by the European Investment Bank in the framework of the EPM The TNO report gives an overview of the environmental condition of the Mediterranean especially that of EC Mediterranean countries It also estimates the environmental investment requirements for sewage treatment plants river basin management port reception facilities other environmental protection measures

Environmental Problems of the Greeks and Romans Johnson Donald

Hughes,2014-02-15 How did ancient societies change the environment and how do their actions continue to affect us today In this dramatically revised and expanded second edition of the work entitled *Pan's Travail* J Donald Hughes examines the environmental history of the classical period and argues that the decline of ancient civilizations resulted in part from their exploitation of the natural world Focusing on Greece and Rome as well as areas subject to their influences Hughes offers a detailed look at the impact of humans and their technologies on the ecology of the Mediterranean basin Evidence of deforestation in ancient Greece the remains of Roman aqueducts and mines and paintings on centuries old pottery that depict agricultural activities document ancient actions that resulted in detrimental consequences to the environment Hughes compares the ancient world's environmental problems to other persistent social problems and discusses attitudes toward nature expressed in Greek and Latin literature In addition to extensive revisions based on the latest research this new edition includes photographs from Hughes's worldwide excursions a new chapter on warfare and the environment and an updated bibliography

An Introduction to Global Environmental Issues Lewis A. Owen,Professor Kevin T Pickering, Kevin T.

Pickering,2006-03-01 An Introduction to Global Environmental Issues presents a comprehensive and stimulating introduction to the key environmental issues presently threatening our global environment Offering an authoritative introduction to the key topics a source of latest environmental information and an innovative stimulus for debate this is an essential book for all
