Enter the World of Lathe-turned Objects Albert LeCoff, 1997 **Jim Partridge** Alison Britton, Jim Partridge, Katherine Swift, 2003 Celebrating the achievements of Jim Partridge b 1953 as one of the UK's finest woodworkers this book is the first to profile the artist's career His highly distinctive style of maximising the sensual qualities of the materials he selects is reflected by the pieces reproduced from carved vessel forms to monumental site specific commissions

American Craft, 2003 *Lathe-turned Objects* Albert B. LeCoff, 1988 **Miniature Monuments** Helmut Puff, 2014-09-23 Miniature Monuments Modeling German History offers a series of essays on small scale models of bombed out cities Created between 1946 and the present these plastic renderings of places provide eerie glimpses of destruction and devastation resulting of the air war This study thus permits fresh angles on post war responses to the compounded losses of WW II and it does so through considering these miniature monuments of among others Frankfurt Munich Schwetzingen Heilbronn and Hiroshima in a deep cultural history that interlaces the sixteenth eighteenth and twentieth centuries Three

dimensional renderings in diminutive size have rarely been subjected to rigorous theoretical reflection. Conventionally, models whether of ruins or intact spaces have been assumed to be easily legible; that is, they have been assumed to be vehicles of the authentic. Yet rubble and other models should be theorized as complex simulacra of abstract realities and catalysts of memories. *Miniature Monuments* thus tackles a haunting paradox: building ruins. The book elucidates how utterly contingent processes of crumbling and collapse. The English words for the Latin *ruina* came to command such great interest in modern Europe that tremendous efforts were taken to uncover, render, and most of all, recreate ruins. *The Cumulative Book Index*, 1998. A world list of books in the English language. *Object Lessons*, 2001. By clearly articulating the ways that their work is constructed, the artists in this book instill their unique pieces with a very particular kind of aesthetic, each with its own history and set of associations. *Song of Songs*, Paul J. Griffiths, 2011-06. This addition to the well-received Brazos Theological Commentary on the Bible offers theological exegesis of the *Song of Songs*. *Expressions in Wood*, Matthew Kangas, John Perreault, Tran Turner, 1996. This richly illustrated book presents examples of creativity and technical accomplishment by artists working in wood. Sixty-one wooden vessel forms represent the highest achievements from the past 15 years by both leading and relatively unknown artists in the United States, England, and Australia. Essays provide a historical lineage of the handmade object, trace relationships between these works and key sculptures of the earlier 20th century, supply a critical framework for wooden vessels of the post-World War II era, and offer an unparalleled technological history and current perspective on vessel making in wood. **Forbes**, 1992. *The Fine Art of Wood*, Bonita Fike, Mike Mendelson, Detroit Institute of Arts, 2000. Featuring innovative pieces with striking shapes, unusual finishes, and sensuous woods from every corner of the world, the book offers a rare opportunity to explore a pivotal breakthrough in the field: artists working in wood now claim the same freedom of expression long enjoyed by ceramists and glass artists. *India*, 1987. Collection of articles. **Worth**, 2007. Wealth in perspective. **English Mechanic and World of Science**, 1891. *Tales from the Blue Ox*, Dan Brett, 2004-03. A collection of the best tools, techniques, recipes, and general common sense gleaned from the history of Victorian-era ingenuity. **A History of Glassforming**, Keith Cummings, 2002. Illustrated throughout with beautiful photographs and drawings. *A History of Glassforming* is a singular and important book for historians, connoisseurs, and students of glass. *The New Encyclopædia Britannica: Macropædia*, 1991. **Things**, Geoffrey Grigson, Charles Harvard Gibbs-Smith, 1957.
