European Politics:

European Politics Klaus H Goetz, Peter Mair, Gordon Smith, 2013-09-13 This book arises out of a specially commissioned issue of *West European Politics* marking the journal's 30th anniversary. It examines the profound changes in the European political landscape over the last three decades including the fall of Communism, progressive European integration, territorial restructuring, public sector reforms at European, national, regional, and local levels, changes in democratic participation, protest elections, political communication, political parties and party competition, and challenges to the welfare state. The book also discusses how political science has responded to these changes in terms of its substantive focus, concepts, methods, and theories. Many of the 17 contributions included identify important challenges for the future, including those stemming from EU integration, the reduced electoral accountability of politicians, the problematic legitimation of party government, and the sharpening of the edges of the state. Contributors include K. A. Anderson, F. C. Castles, C. Crouch, M. Egeberg, M. Ferrera, H. Goetz, L. Hooghe, E. M. Immergut, R. F. Inglehart, M. Keating, H. D. Klingemann, H. Kriesi, M. Lodge, J. Lovenduski, P. Mair, G. Marks, Y. M. Ny L. Morlino, H. Obinger, V. A. Schmidt, P. C. Schmitter, and G. Smith. This book was published as a special issue of *West European Politics*.

Foundations of European Politics Catherine E. De Vries, Sara Binzer Hobolt, Sven-Oliver Proksch, Jonathan B. Slapin, 2021 With its coherent analytical framework and accessible style, *Foundations of European Politics: A Comparative Approach* introduces students to comparative European politics through the lens of political science theory and data.

Routledge Handbook of European Politics José Magone, 2014-12-17 Since the Treaty of the European Union was ratified in 1993, the European Union has become an important factor in an ever-increasing number of regimes of pooled sovereignty. This Handbook seeks to present a valuable guide to this new and unique system in the twenty-first century, allowing readers to obtain a better understanding of the emerging multilevel European governance system that links national politics to Europe and the global community. Adopting a pan-European approach, this Handbook brings together the work of leading international academics to cover a wide range of topics, such as the historical and theoretical background, the political systems and institutions of both the EU and its individual member nations, political parties and party systems, political elites, civil society, and social movements in European politics, the political economy of Europe, public administration and policy-making, external policies of the EU. This is an invaluable and comprehensive resource for students, scholars, researchers, and practitioners of the European Union, European politics, and comparative politics.
