## **First Contract Women And The Fight To Unionize:**

**First Contract** Carole Condé, Karl Beveridge, 1986      **Mining the Media Archive** Dot Tuer, 2006 Mining the Media Archive gathers together an exciting collection of essays by writer and cultural theorist Dot Tuer Ranging from monographs on new media artists to a history of Canada's most controversial artist run centre the CEAC to testimonial writing on cultural politics and post colonialism in Canada and Argentina Tuer's writings address issues of global media and local remembrance through a unique blend of storytelling archival research and cultural analysis      *Working 9 to 5* Ellen Cassedy, 2022-09-06 A must read for any activist or reader in search of inspiration Liz Shuler president AFL CIO 2022 Sarton Awards Finalist for Memoir 2023 Independent Publisher Book Awards Gold Medalist Women's Issues category 9 to 5 wasn't just a comic film it was a movement built by Ellen Cassedy and her friends Ten office workers in Boston started out sitting in a circle and sharing the problems they encountered on the job In a few short years they had built a nationwide movement that united people of diverse races classes and ages They took on the corporate titans They leafleted and filed lawsuits and started a woman led union They won millions of dollars in back pay and helped make sexual harassment and pregnancy discrimination illegal The women office workers who rose up to win rights and respect on the job transformed workplaces throughout America And along the way came Dolly Parton's toe tapping song and a hit movie inspired by their work *Working 9 to 5* is a lively informative firsthand account packed with practical organizing lore that will embolden anyone striving for fair treatment      **Labour Goes to War** Wendy Cuthbertson, 2012 During the Second World War the Congress of Industrial Organizations in Canada grew from a handful of members to more than a quarter million and from political insignificance to a position of influence in the emergence of the welfare state What was it about the good war that brought about this phenomenal growth *Labour Goes to War* analyzes the organizing strategies of the CIO during the war to show that both cultural and economic forces were at work Labour shortages gave workers greater power in the workplace and increased their militancy But workers patriotism their ties to those on active service and allegiance to the people's war also contributed to the CIO's growth and to what it claimed for workers Drawing on a wealth of archival material Wendy Cuthbertson illuminates this complex wartime context She also shows how the complex often contradictory motives of workers during this period left the Canadian labour movement with an ambivalent progressive conservative legacy      [Documentation Sur la Recherche Féministe](#), 1981      **Fighting Union Busters in a Carolina Carpet Mill** Phil Cohen, 2020-09-29 In 2017 Workers United SEIU called veteran organizer Phil Cohen out of retirement to investigate and expose a union busting plot by Mohawk Industries at a North Carolina carpet mill His hard hitting account chronicles the resulting labor dispute that rocked a Fortune 500 company The organizer had to prove management was behind an illegal decertification petition and forced workers to sign using strong arm tactics Though terrified of retaliation witnesses gradually agreed to testify before federal agents Mohawk retained a high powered union busting attorney who appealed directly to ultra conservative heads of the

National Labor Relations Board while Right to Work Committee lawyers framed the issue as a test case to revoke laws protecting employee rights The union s only hope rested on presenting evidence too formidable for political bias to surmount This memoir infused with dry wit and insights into human nature blows the lid off the nation s union busting epidemic thrusting readers into the tumultuous environment of a union hall in crisis

**New Media Unions** Nicole S. Cohen, Greig de Peuter, 2020-03-11 Investigating the wave of unionization that has seen over 60 digital and legacy media outlets unionize since 2015 this book explores how a flash of organizing by digital first journalists has become a full blown movement to unionize journalism particularly in the United States Through in depth interviews with journalists and organizers New Media Unions maps the process of labor organizing foregrounding journalists voices and documenting a historic and ongoing moment in the digital media industry Cohen and de Peuter examine what motivates union drives then follow journalists through the making of a union from scratch They explore how journalists strategically self organize apply their communication skills to alternative ends generate affective bonds of solidarity and build power to confront anti union campaigns and bargain first contracts winning significant gains and drafting a new labor code for journalism in a digital age This book demonstrates that if journalism is to have a future it must be organized New Media Unions provides a counter perspective on an industry in flux whose protagonists young journalists facing precarious futures are using collective organizing to articulate a bottom up vision for journalism s future This is a valuable resource for academics and researchers interested in political economy journalism studies and labor studies Book website [www.newmediaunions.com](http://www.newmediaunions.com)
