**A Novel Marketplace** Evan Brier,2012-02-25 As television transformed American culture in the 1950s critics feared the influence of this newly pervasive mass medium on the nation s literature While many studies have addressed the rhetorical response of artists and intellectuals to mid twentieth century mass culture the relationship between the emergence of this culture and the production of novels has gone largely unexamined In *A Novel Marketplace* Evan Brier illuminates the complex ties between postwar mass culture and the making marketing and reception of American fiction Between 1948 when television began its ascendancy and 1959 when Random House became a publicly owned corporation the way American novels were produced and distributed changed considerably Analyzing a range of mid century novels including Paul Bowles s *The Sheltering Sky* Ray Bradbury s *Fahrenheit 451* Sloan Wilson s *The Man in the Gray Flannel Suit* and Grace Metalious s *Peyton Place* Brier reveals the specific strategies used to carve out cultural and economic space for the American novel just as it seemed most under threat During this anxious historical moment the book business underwent an improbable expansion by capitalizing on an economic boom and a rising population of educated consumers and by forming institutional alliances with educators and cold warriors to promote reading as both a cultural and political good *A Novel Marketplace* tells how the book trade and the novelists themselves successfully positioned their works as embattled holdouts against an oppressive mass culture even as publishers formed partnerships with mass culture institutions that foreshadowed the multimedia mergers to come in the 1960s As a foil for and a partner to literary institutions mass media corporations assisted in fostering the novel s development as both culture and commodity

*The Silent War* John Pina Craven, 2002-06-02 The Cold War was the first major conflict between superpowers in which victory and defeat were unambiguously determined without the firing of a shot Without the shield of a strong silent deterrent or the intellectual sword of espionage beneath the sea that war could not have been won John P Craven was a key figure in the Cold War beneath the sea As chief scientist of the Navy s Special Projects Office which supervised the Polaris missile system then later as head of the Deep Submergence Systems Project DSSP and the Deep Submergence Rescue Vehicle program DSRV both of which engaged in a variety of clandestine undersea projects he was intimately involved with planning and executing America s submarine based nuclear deterrence and submarine based espionage activities during the height of the Cold War Craven was considered so important by the Soviets that they assigned a full time KGB agent to spy on him Some of Craven s highly classified activities have been mentioned in such books as *Blind Man s Bluff* but now he gives us his own insights into the deadly cat and mouse game that U S and Soviet forces played deep in the world s oceans Craven tells riveting stories about the most treacherous years of the Cold War In 1956 Nautilus the world s first nuclear powered submarine and the backbone of the Polaris ballistic missile system was only days or even hours from sinking due to structural damage of unknown origin Craven led a team of experts to diagnose the structural flaw that could have sent the sub to the bottom of the ocean taking the Navy s missile program with it Craven offers insight into the rivalry between the advocates of deterrence with whom he sided and those military men and scientists such as Edward Teller who believed that the United States had to prepare to fight and win a nuclear conflict with the Soviet Union He describes the argument that raged in the Navy over the reasons for the tragic loss of the submarine *Thresher* and tells the astonishing story of the hunt for the rogue Soviet sub that became the model for *The Hunt for Red October* including the amazing discovery the Navy made when it eventually found the sunken sub Craven takes readers inside the highly secret DSSP and DSRV programs both of which offered crucial cover for sophisticated intelligence operations Both programs performed important salvage operations in addition to their secret espionage activities notably the recovery of a nuclear bomb off Palomares Spain He describes how the Navy s success at deep sea recovery operations led to the takeover of the entire

program by the CIA during the Nixon administration A compelling tale of intrigue both within our own government and between the U S and Soviet navies The Silent War is an enthralling insider s account of how the submarine service kept the peace during the dangerous days of the Cold War *2001 Novel and Short Story Writer's Market* Barbara Kuroff,Anne Bowling,Nancy Breen,2001 Listing markets agents publishers and more this comprehensive guide is an author s best reference One of the best guides to fiction writer s markets available *American Reference Book Annual* Videodiscs Edward W.
