Corson,2013-11-01 Oral Discourse and Education examines spoken language as a field of study looking at the various ways in which we can both theorise the place of talk in education and examine the way talk is actually done in educational settings Given the centrality of literacy based practices in schools a book focusing on talk brings quite different and important perspectives to the study of education Talk is something that has all too often been devalued and taken for granted What becomes evident throughout the papers included in this volume is that talk is of central importance in establishing identities and the cultures in which those identities are located However because we are unused to reflexively examining the way we talk there is a serious disjuncture between what we believe talk should achieve and what can be seen to be achieved in actual talk in educational settings Anyone interested in teaching should read this book Becoming more aware of the centrality of talk and what it achieves is important both for enabling us to find ways to bring our ideals more in line with our practices and for being able to recognise and reflect on the ways our talk can be achieving things quite other than what we intend This book is relevant to teachers at primary secondary and tertiary levels and for researchers interested in spoken language in educational contexts When Does the Letter A Say Its Name? Phonics for Beginning Readers Mamie Marian Sarja,2007-01-01 **Teach Your Child to Read in 100 Easy Lessons** Phyllis Haddox,Siegfried Engelmann,Elaine Bruner,1986-06-15 A step by step program that shows parents simply and clearly how to teach their child to read in just 20 minutes a day *Fluency and Reading Comprehension in Typical Readers and Dyslexics Readers* Simone A. Capellini,Giseli D. Germano,2018-02-22 Reading involves decoding and comprehension components and to become efficient it requires a large number of cognitive and linguistic processes Among those the phonological awareness the alphabetic principle the decoding the fluency the lexical development and the text comprehension development The reading comprehension is strongly related with the development of vocabulary oral language linguistic skills memory skills and ability to make inferences and the world experiences of each individual These processes become important only when the professional needs to deal with students presenting difficulties in learning how to read The difficulty using the knowledge of conversion rules between grapheme and phoneme to the word reading construction characterizes the dyslexia which is a specific learning disorder with a neurological source These difficulties presented by students with dyslexia interfere in their learning process impairing the learning development Knowing and following the reading development and its processes as well as obtaining the punctuation of fluency abilities and students comprehension allow us to understand what happens when the student presents difficulties to read This could
