Hell Bomb:

By the Bomb's Early Light Paul Boyer, 2005-10-21 Originally published in 1985 *By the Bomb's Early Light* is the first book to explore the cultural fallout in America during the early years of the atomic age Paul Boyer argues that the major aspects of the long running debates about nuclear armament and disarmament developed and took shape soon after the bombing of Hiroshima The book is based on a wide range of sources including cartoons opinion polls radio programs movies literature song lyrics slang and interviews with leading opinion makers of the time Through these materials Boyer shows the surprising and profoundly disturbing ways in which the bomb quickly and totally penetrated the fabric of American life from the chillingly prophetic forecasts of observers like Lewis Mumford to the Hollywood starlet who launched her career as the atomic bomb In a new preface Boyer discusses recent changes in nuclear politics and attitudes toward the nuclear age

Carolina Bluegrass: A High Lonesome History Gail Wilson-Giarratano, PhD ,2015 In the Carolinas bluegrass is more than music it s a way of life The origins of the genre date back to the earliest frontier settlements and banjo music appeared at dances in Greenville South Carolina as early as 1780 The genre was essential to socialization in the textile mills of both states Old time music of the Blue Ridge Mountains heavily influenced the sound Bill Monroe considered by many to be the father of bluegrass began his recording career in Charlotte in 1936 Many of the most popular bands such as the Hired Hands and Briarhoppers regularly performed live on local television stations in Columbia Spartanburg and Charlotte Today bluegrass festivals fill local calendars across the region Author Gail Wilson Giarratano uses interviews and the historic record to tell this unique and compelling story
