

Another example of the letter's stronger argument is the author's explanation of the 2001 study. She concedes that the representative is correct in citing that bypasses are proven to reduce noise and traffic in town, but she argues that the study shows a negative effect on local businesses. This piece of the study was not mentioned by Representative Walls or the press release, and it is a proven fact. This draws more credibility to the argument in the letter.

Also, although it is a speculation, it is more reasonable that traveler's will stick to the main highway and not venture miles off their path into small town when chain gas stations, restaurants, and motels are conveniently located directly at the highway exits. It is less likely that old roads in the towns will become historical locations, attracting tourists and boosting small business sales.

Despite the argument and evidence given by the press release, it appears that the letter to the editor offers a stronger case. The author's ideas are backed up by logical explanations and facts with a few speculations. Though the press release offers some fact, it is mainly specked with anticipations and hopes, driven to overshadow any doubts and quell any concerns. The letter is penned by a resident of the town and owner of a business, subject to firsthand opinions of the citizens of the district. The press release is pushed by an elected representative who, upon visiting the town a number of times and consulting a small percentage of the constituents, is convinced she understands the majority. Although both parties may very well have the best interests of the district in mind, and either position could be correct, it is clear that the letter provides a better-supported argument.
