

GUIDANCE NOTE: ADVICE ON WRITING ESSAYS

Disclaimer: This advice pertains to the Equity and Trusts modules only. Ask your tutor or module leader before employing it in other modules.

Introduction

Essays are often very unpopular among law students. They shouldn't be! As this note will endeavour to show, they present opportunities as well as challenges and they involve the same basic skill engaged by problem questions: creating a reasoned argument.

The most common weaknesses in essays are **poor structure** and **descriptiveness**. This technique will help you to avoid both of these pitfalls.

Essay questions can be off-putting because they give you more freedom to explore your own ideas and do not come with a built-in structure. Often essay questions are not interrogative (i.e. they don't end in a question mark). Instead, they ask you to discuss or evaluate something. Such questions are asking you to **take a position** on the statement, and **argue it through**.

1. The freedom essay prompts give you is an opportunity as much as a challenge. You are not being judged against a model answer. All you need to do is to **respond to the question**.
2. You might agree with the assertion; disagree with it; agree in parts, or to a point.
3. The strength of your response will depend on how persuasive your argument is. Imagine a reader who does not already agree with you, but is willing to be convinced. They will need **good reasons** supported by **evidence** and **authority** to come round to your way of thinking.

Creating a reasoned argument

1. **STEP ONE: Read the question carefully. What is it asking you?**
