Essential But Expendable:

The Rowman & Littlefield Handbook on Workplace Diversity and Stratification Tsedale M. Melaku, Angie Beeman, Christoph Winkler, 2023-11-01 Organizations and institutions use diversity and inclusion mantras to signal opportunity and access for all. However, the real world results are often underwhelming, and people are demanding that organizations recognize the value that diversity brings to a workplace and be held accountable to the diversity and inclusion mission statements on their websites. The Rowman Littlefield Handbook on Workplace Diversity and Stratification provides a comprehensive yet concise overview of important issues, themes, and research regarding workplace diversity and stratification. The book analyzes present-day and future implications of diversity in the workplace and offers concrete ways of developing policies and practices that will make diversity an intrinsic part of any organizational culture. Taking an interdisciplinary approach, the book covers topics including racism, sexism, socio-economic status, LGBTQ workers, education, intersectionality, neurodiversity, religion, and allyship. Practical, contemporary, and relevant, this is an excellent resource for anyone interested in understanding what workplace diversity and stratification mean for everyday people, institutions, and society as a whole.

Beyond the Virus Sabrina Germain, Adrienne Yong, 2024-03-12 Stark social inequalities have been revealed and exacerbated by the COVID-19 pandemic. This book explores these inequalities through three thematic strands: power and governance, gender, and marginalized communities.

Wings of Gold Beverly Weintraub, 2021-12-15 On Feb 2, 2019, the skies over Maynardville, Tennessee, filled with the roar of four F/A-18F Super Hornets streaking overhead in close formation. In each aircraft were two young female flyers executing the first all-woman Missing Man Formation flyover in Navy history in memory of Captain Rosemary Mariner, groundbreaking Navy jet pilot, inspiring commander, determined and dedicated leader whose drive to ensure the United States military had its choice of the best America had to offer. Both men and women broke down barriers and opened doors for female aviators wanting to serve their country. Selected for Navy flight training as an experiment in 1972, Mariner and her five fellow graduates from the inaugural group of female Naval Aviators racked up an impressive roster of achievements and firsts: first woman to fly a tactical jet aircraft, first woman to command an aviation squadron, first female Hurricane Hunter, first pregnant Navy pilot, plaintiff in a federal lawsuit that overturned limits on women's ability to fulfill their military duty. Leading by example and by confrontation when necessary, they challenged deep skepticism within the fleet and blazed a trail for female aviators wanting to serve their country equally with their male counterparts. This is the story of their struggles and triumphs as they earned their Wings of Gold, learned to fly increasingly sophisticated jet fighters and helicopters, mastered aircraft carrier landings, served at sea, and reached heights of command that would have been unthinkable less than a generation before. And it is the story of the legacy they left behind, one for which the women performing the Navy's first Missing Woman Flyover in Mariner's memory owe a debt of gratitude.
