Jürgen Moltmann, Margaret Kohl

Future Remembered:

The Coming of God Jürgen Moltmann, Margaret Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jürgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God's promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann's novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann's comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God

Temporal Asymmetries in Philosophy and Psychology Christoph Hoerl, Teresa McCormack, Alison Fernandes, 2022-02-24 Humans attitudes towards an event often vary depending on whether the event has already happened or has yet to take place The dread felt at the thought of a forthcoming exam turns into relief once it is over Recent research in psychology also shows that people value past events less than future ones such as offering less pay for work already carried out than for the same work to be carried out in the future This volume brings together philosophers and psychologists with a shared interest in such psychological past future asymmetries It asks questions such as What different kinds of psychological past future asymmetries are there and how are they related Under what conditions do humans exhibit them To what extent do they reflect features of time itself or particular beliefs people have about time Are they rational or at least rationally permissible or should we aspire to being temporally neutral What exactly does temporal neutrality consist of

PSI - What It Is and How It Works Keith Chandler, 2001-11 PSI or parapsychological phenomena have been investigated by serious researchers for well

over a century Despite some diehard skeptics the existence of PSI has now been solidly established by competent scientists using the most rigorous methodologies Yet a complete understanding of the phenomena of telepathy precognition clairvoyance and psychokinesis has remained elusive for two reasons First a new worldview was needed to replace the outdated materialism assumed by so many scientists and philosophers That view Mental Realism was developed in Keith Chandler s last book *The Mind Paradigm A Unified Model of Mental and Physical Reality* Second a thorough review of the evidence for PSI was required to expose the erroneous assumptions that had hindered its theoretical progress That task has been successfully undertaken by the author enabling him to entitle this book simply *PSI What it is and How it works* With this book Keith Chandler has now brought us full circle from the clockwork sensory bound world of Descartes and Newton to an understanding of our universe as a manifestation of purposeful intelligent psychic energy He has also finally removed parapsychology from the category of the occult and placed it where it belongs in the domain of legitimate science
