## Education Without Impact:

**Education Without Impact** George H. Douglas,1992 Even though it is easy to expect too much from our institutions of higher learning there is still reason for concern that American colleges and universities have followed paths that are at cross purposes with the spirit of liberal education American Education ,1977 **Christian Liberal Arts** V. James Mannoia,2000 Christian Liberal Arts articulates the practical pedagogical and theological reasons why Christian liberal arts colleges are distinctive in the world of American higher education Mannoia enumerates the intrinsic and instrumental values of Christian liberal arts and how both should forcefully shape an institution s goals Welcome to the Jungle Geoffrey T. Holtz,1995-05-15 Generation X Twentysomethings The new Lost Generation The 75 million Americans born between 1960 and 1980 have been called just about every name under the sun Holtz offers the first detailed tour of the cultural political and economic forces that set the stage for this misunderstood generation 25 charts **Council of Organization and Others for Education About Parochial, Inc. v. Governor, 455 MICH 557 (1997)** ,1997 106092 106094 **Board of Education of the Pope County Community Unit School District No. 1 V. Records and Briefs.** New York (State)., **A Study of Schools Serving Military Families in the U.S.** John S. Helmick,1997 The Conference Report on the National Defense Authorization Act for FY 1995 directed the Secretary of Defense to examine military parents opinions of the quality of education in a the Federally funded Department of Defense Domestic Dependent Elementary and Secondary Schools DDESS and b local education agencies LEAs in which over 30% of enrolled students are military connected Two mail out surveys were conducted in addition to interviews of installation state and local officials The surveys were administered to over 40 000 active duty service members between December 1995 and October 1996 This study found strong support for the current DDESS system among the parents of DDESS students installation commanders and DDESS personnel Although they do not actively seek a transfer of DDESS schools to LEAs state and local education officials are open to a transfer as long as the Federal government provides sufficient funding This study also found concerns that if transfers are required in the future that they be carefully and strategically planned and that no transfer be made without full funding of Impact Aid LEAs with enrollments that are over 30 percent military connected students reported problems resulting from funding levels below the level authorized by the Impact Aid statutes **Collinsville Community Unit School District No. 10 V. Regional Board of School Trustees of St. Clair County** ,2004 **Changing Urban Education** Clarence Nathan Stone,1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective

teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future
