Deborah Ascher Barnstone

Hans Scharoun:

Hans Scharoun Peter Blundell Jones, Peter Blundell-Jones, Hans Scharoun, 1995 Hans Scharoun 1893 1972 first achieved international recognition in 1927 with his controversial house for the Stuttgart Weissenhofsiedlung His experiments with free planning and dynamic interior space continued in his native Germany through the difficult wartime years from which he emerged with renewed energy and a consolidated architectural philosophy As an important exponent of Organic Architecture Scharoun developed a radical new kind of architectural space and his disdain for imposed form and emphasis on open minded discovery have proved increasingly influential among a younger generation of architects Peter Blundell Jones s exhaustive study provides a comprehensive overview of Scharoun s life and work and explores his theoretical stance in relation to contemporaries such as Hugo Haring Mies van der Rohe and Le Corbusier Generously illustrated throughout with plans and drawings and specially commissioned photographs by Dennis Gilbert this book presents a timely re evaluation of Scharoun s unique contribution to architectural theory and design **Hans Scharoun, 1893-1972** Eberhard Syring, Jörg C. Kirschenmann, 2004 This text studies the architecture of Hans Scharoun It provides an analysis of his career until his death in 1972 Hans Scharoun Hans Scharoun, 1973 Growing up Modern Julia Jamrozik, Coryn Kempster, 2021-03-08 What was it like to grow up in a Modernist residence Did these radical environments shape the way that children looked at architecture later in life The oral history in this book paint a uniquely intimate portrait of Modernism The authors conducted interviews with people who spent their childhood in radical Modernist domestic spaces uncovering both serene and poignant memories The recollections range from the ambivalence of philosopher Ernst Tugendhat now 90 years old who lived in the famous Mies van der Rohe house in Brno 1930 to the fond reminiscing of the youngest daughter of the Schminke family who still dreams of her Scharoun designed ship like villa in L bau 1933 The book offers a unique private and often refreshing perspective on these icons of the avant garde **Makers of 20th-Century Modern Architecture** Donald Leslie Johnson, Donald Langmead, 2013-05-13 Makers of 20th Century Modern Architecture is an indispensable reference book for the scholar student architect or layman interested in the architects who initiated developed or advanced modern architecture The book is amply illustrated and features the most prominent and influential people in 20th century modernist architecture including Wright Eisenman Mies van der Rohe and Kahn It describes the milieu in which they practiced their art and directs readers to information on the life and creative activities of these founding architects and their disciples The profiles of individual architects include critical analysis of their major buildings and projects Each profile is completed by a comprehensive bibliography **Beyond the Bauhaus** Deborah Ascher Barnstone, 2016-06-28 Although the Breslau arts scene was one of the most vibrant in all of Weimar era Germany it has largely disappeared from memory Studies of the influence of Weimar culture on modernism have focused almost exclusively on Berlin and the Dessau Bauhaus yet the advances that occurred in Breslau affected nearly every intellectual field forming the basis for aesthetic modernism internationally and having an

enduring impact on visual art and architecture Breslau boasted a thriving modern arts scene and one of the premier German arts academies of the day until the Nazis began their assault on so called degenerate art This book charts the cultural production of Breslau based artists architects art collectors urban designers and arts educators who operated in the margins of Weimar era cultural debates Rather than accepting the radical position of the German avant garde or the reactionary position of German conservatives many Breslauers sought a middle ground This richly illustrated volume is the first book in English to address this history constituting an invaluable addition to the literature on the Weimar period Its readership includes scholars of German history art architecture urban design planning collecting and exhibition history of the avant garde and of the development of arts academies and arts pedagogy **Hans Scharoun and China** Liyang Ding,2024-11-15

This book presents the first systematic overview and analysis of the deep connection between Scharoun and China offering insights into East West cultural exchange and enriching existing understandings of modernism The German architect Hans Scharoun has typically been pigeonholed as a leading figure in expressionist architecture As this book shows however this understanding oversimplifies the multifaceted nature of Scharoun s career and overlooks his central role within the tradition of Neues Bauen The book begins with Scharoun s early interactions with East Asian architects in the 1930s his active involvement in the Chinese Werkbund 1941 42 and his extensive research on Chinese architecture and urban culture in the mid 1940s and 1950s The book then examines Scharoun s postwar architectural designs and urban planning projects most notably the Kollektivplan the Volksschule Darmstadt and the Berliner Philharmonie which incorporated original spatial and urbanistic concepts such as Stadtlandschaft Raum der Mitte and aperspectival space inspired to varying degrees by Chinese architectural and urban planning traditions The book will appeal to scholars and students of modern architecture urban planning and architectural theory especially those interested in modernism and East West cultural exchange *Hugo*

Häring Peter Blundell Jones,1999 Peter Blundell Jones Professor of Architecture at the University of Sheffield has long been concerned with the organic movement in architecture and has written extensively about it including a substantial work on Hans Scharoun The present book is not just a biography of Haring but an unusually detailed analysis of his architectural work including many unbuilt projects which have never before been published It also includes an account of Haring s theory with translated extracts from his many writings Through setting Haring within his historical context and differentiating his position from figures such as Mies Le Corbusier and Hannes Meyer Peter Blundell Jones suggests a radical reframing of the early Modern Movement He was aided in the development of the book by Haring s personal assistant in the late years Margot Aschenbrenner who was trained as a philosopher **The Break with the Past** Deborah Ascher

Barnstone,2017-08-15 Between 1918 and 1933 the German interwar avant garde was a primary force driving European cultural innovation and modernism These innovations continue to influence artistic practice theory and arts education today thus making a comprehensive study of the relationship between individual war experience and the immediate response of

avant garde architects after the war all the more important The Break with the Past pursues several important interrelated questions What were the disparate war experiences of German architects and did they have different effects on Weimar cultural production Did political orientation play a part in support for the war In aesthetic choices What changes occurred in avant garde architectural practice after 1918 How do they compare with pre war positions and practices and expectations for post war outcomes In order to address these questions the book uses individual case studies of four leading architects Bruno Taut Walter Gropius Erich Mendelsohn and Hans Scharoun This is a valuable resource for academics and students in the areas of Art and Architecture History German history and Cultural Studies European Culture and Modernism **Hans Scharoun** Hans Scharoun,1980 [Architectural Reflections](#) Colin St John Wilson,2014-05-16 Architectural Reflections Studies in the Philosophy and Practice of Architecture focuses on the principles techniques and the philosophical context and practice of architecture The book first ponders on natural imagination ethics of architecture and an interpretation of Wittgenstein s comments on architecture Topics include the meaning of play language game and gesture language role of aesthetics reality of architecture fine art and practical art origin of the work of architecture concept of psychological position artistic condensation and figures of architectural form The manuscript then examines Alvar Aalto and the state of modernism and Gunnar Asplund and the dilemma of classicism Topics include modernism and modernismus issue of classicism and connections and collaborations The text takes a look at the thoughts of Hans Scharoun Sigurd Lewerentz and Gerrit Rietveld on the relationship of philosophy and architecture The publication is a valuable reference for philosophers and architects wanting to study further the philosophy and practice of architecture **Contemporary Architects** Muriel Emanuel,2016-01-23 **GA global architecture** Hans Scharoun,1973 [Hans Scharoun](#) Peter Blundell Jones,Peter Blundell-Jones,1997-04-02 An exhaustive study of the significant German architectural Modernist **Hans Scharoun** Carsten Krohn,2018 Hans Scharoun is one of the most important architects of the 20th century as a proponent of organic architecture he created unconventional and imaginative buildings which adapt to users needs in a dynamic way His oeuvre includes family residences and housing estates but also encompasses the German embassy in Brazil and urban icons such as the Berlin Philharmonie The book a cooperation with Baukunstarchiv the architecture archive of the Akademie der K nste Berlin documents the entire range of known completed buildings by Scharoun including for the first time early works in East Prussia The specially taken photographs by Carsten Krohn together with the historic photographs and plans from the Hans Scharoun Archive offer a new overview of this expressive organic architecture [Contemporary Architects](#) Ann Lee Morgan,Colin Naylor,1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating

habitable spaces in our day Editor's note *Hans Scharoun* Yukio Futagawa, 1973 Architecture Since 1945; Sources and Directions Jürgen Joedicke, 1969 Joedicke devotes his Introduction to a survey of styles since 1917 giving an entirely fresh picture and interpretation of architecture in the thirties and forties Since architecture of the fifties is dominated by such modern masters as Frank Lloyd Wright Mies van der Rohe and Le Corbusier Joedicke devotes a good part of his book to a discussion of their work and that of the so called International School In the sixties architecture is marked by a movement away from the International School as illustrated by architects in such countries as Japan and Great Britain Joedicke shows the connections between such advanced concepts and the late work of such architects as Eero Saarinen Alvar Aalto Arne Jacobsen Frei Otto and Egon Eiermann **Architectural Design** , 1963 The New Interior Decoration Dorothy Todd, Raymond Mortimer, 1929 Describes early 20th century interior decoration noting the influence of major designers of the time
