Elusive Daniel Defoe:

The Elusive Daniel Defoe Laura Ann Curtis, 1984 This psychological portrait of England's first great novelist advances the argument that the peculiar ambivalence that characterizes Defoe's writing resulted from an instability caused by his own contradictory drives. Laura Curtis highlights the themes that predominate in Defoe's writing: the attempts to carve a simple and immobile world out of fluid external reality; the conflict between the need for security and the longing for adventure; the constant intertwining of comedy and nightmare; the use of doubles personae and disguise. *Defoe and the Whig Novel* Leon Guilhamet, 2010 Defoe's fictional settings all begin in the reign of the Stuarts but the lack of specificity invariably reflects on the Hanoverian political and social situation which witnessed a crisis in Whig leadership from 1717 to Walpole's resumption of power after the disaster of the South Sea Bubble and the sudden deaths of Stanhope and Sunderland. This serious split in Whig leadership probably played a role in Defoe's turning toward fiction. But Defoe never abandoned his social and political views. This study explores how his social viewpoint actuates his major fiction. *The Habit of Lying* John Vignaux Smyth, 2002-03-18 An investigation of deceit and concealment that proposes a new theory of fiction both as a new genre of literature and as a strategy in the social world. Defoe's Major Fiction Elizabeth R. Napier, 2016-01-28 This book focuses on the pervasive concern with narrativity and self-construction that marks Defoe's first-person fictional narratives. Defoe's fictions focus obsessively and elaborately on the act of storytelling not only in his creation of idiosyncratic voices preoccupied with the telling and often the concealing of their own life stories but also in his narrators' repeated aversion to other untold stories that compete for attention with their own. Defoe's narratives raise profound questions about selfhood and agency as well as demonstrate competing attitudes about narration in his fictive worlds. His canon exhibits a broad range of first-person fictional accounts from pseudo-memoir *A Journal of the Plague Year* and *Memoirs of a Cavalier* to criminal autobiography *Moll Flanders* to confession *Roxana* and the narrators of these accounts secretive compulsive fractive exhibit an array of resistances to the telling of their life stories. Such experiments with narration evince Defoe's deep involvement in projects of self-description and delineation as he interrogates the boundaries of the self and dramatizes the arduousness of self-accounting. Defoe's fictions are emphatically consciousness-centered and the significance of such a focus to the development of the novel is patently as great as is his realistic style. Defoe's narrative project in fact challenges current views on the moment at which inwardness and interiority begin as Lukács argued to comprise the subject matter of the novel implicitly attributing to identity and consciousness a place of signal and complex importance in the new genre. *A Spectacular Failure* Virginia La Grand, 2012-01-01 This study examines Defoe's three-volume *Robinson Crusoe* series in the light of the banter style he developed as a pamphleteer. That heavily ironic style had brought him renown but also put him in the pillory. The present study explores for the first time Defoe's complaint that readers and pirate abridgers misread his tale of the would-be trader *Robinson Crusoe*. Using Discourse Analysis and Relevance Theory to examine the early abridgements of

Volume I and Defoe's subsequent two volumes this study argues that Defoe's greatest success is also a peculiar failure

A New Species of Criticism Joseph F. Bartolomeo, 1994-04 He also demonstrates the extent to which early novelists and critics anticipated many of the aesthetic and ethical issues that concern critics of fiction and of other popular genres in our time

Daniel Defoe John J. Richetti, 1987 Places Defoe's works in the context of his life and times in an effort to provide the historical background necessary for a complete understanding of his works

The 17th and 18th Centuries Frank N. Magill, 2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography
